Dear Rudy & Erin:

*** An ancient Chinese curse is: "May you live in interesting times"!!! How "interesting" can it get?

*** Joe BIDEN is spending \$90-million to house the recent influx of illegal aliens when many U.S. Citizens are homeless and hungry. I saw 5-pictures of cargo containers and pole barns, without running water, where migrant children wrapped in aluminum blankets are sitting and laying shoulder-to-shoulder, thanks to TX Representative Henry Cuellar because BIDEN will not let news media in. The government is housing them at 729% over capacity. Many aliens, who are 10% COVID-19 positive, are being put into hotels and motels throughout the country to spread the COVID. Terrorists from Iran, Sri Lanka, Turkey, Yemen and other places have been caught crossing the Southern Border but 80% of them get across without getting caught; some Chinese PLA have also been caught. This must be "interesting", at least to China and terrorists.

*** What's life without adversity and Lockdowns? Drug use in MDOC prisons quadrupled since COVID-19 Lockdowns began. On 18 MARCH 2021, MDOC had us (Housing Unit F) locked down for a day while they shook down Housing Units C and E for drugs. MDOC guards handcuffed and took the main drug dealer, named SAVAGE, from Housing Unit C to "The Hole". Yea! Since the lockdown began, prisoners have had no physical contact with anyone outside of prison other than during hospitalization. The only source for drugs is prison guards of which a guard in Housing Unit C is said to be the source, and he gets \$1,500 a month for this. We'll see if this is true by the environment in a month.

*** I am going for an MRI on my head this week. That is to determine cause of pain and pressure in my right head since having 2.5 months of untreated Strep Pneumonia in APRIL-JUNE 2008. It sometimes flares-up into meningitis. I mainly get medical care by suing them, publicizing the facts through you, daily pushing them and prayer. It takes all fronts of this WAR working together.

*** I've been so busy over the last year that it has been difficult to write a personal letter. Things like DEEP STATE COUP D'ETAT were turned out to educate the General Public to the coming devastation is more important than my situation. I will always survive because I'm protected, Psalm 105:15, etc. If anyone cannot see what is occurring after reading DEEP STATE #13, #15 and #18, they are ???

***I just finished 12 straight hours of writing a Motion for Rehearing ordered last month by the U.S. Court of Appeals in Cincinnati. I often listen to the news and collect info while copying

legal actions written in the early morning hours when there are no interruptions.

*** It was a shock, at 0930 hours this morning, that my blood pressure was 115/73 mmHg after writing my court action all night without sleeping and drinking a cup of coffee just before the check. It is usually between 70/40 mmHg and 100/50 mmHg minutes after my 0400 hours breakfast, then from 190/95 mmHg to 220/101 mmHg the rest of the day. The Cardiologist showed me on a CT Scan that my heart is growing a new artery to replace my blocked Coronary Artery. He said he can fix my heart to cure the hypertension.

*** I hope you all are doing well. Gloria Dios!!!
With Agape & Prayers, from Gary M in the Province of Whitmigan.
