RE: GENOCIDE IN MDOC PRISONS

Dear LCO,

I spent most of the last 15-years in prison with:

(1) openly bleeding rashes from head to toes (attached EXHIBIT H, pp. 1-5, 7-12); and
(2) almost DAILY events of either beating my body on the floor by PASSING-OUT and/or LAYING on my bed UNABLE TO FUNCTION because of HYPOTENSIVE EMERGENCIES (attached EXHIBIT E; EXHIBIT H, pp. 6, 13-14).

Regarding aforesaid number (1), the open bleeding and infected rashes (EXHIBIT H, pp. 1-5, 7-12) were caused by:

(3) 10 years of various stages of undiagnosed and untreated PAINFUL RENAL FAILURE (attached EXHIBIT L); and,
(4) reactions to certain foods served by MDOC that the FDA ended after I notified them.
(5) The RENAL FAILURE was finally treated by a concerned Henry Ford Hospital doctor on 07 JUNE 2019 with a stent to open the 95% stenosis of my right renal artery.

Regarding aforesaid number (2), for 15-YEARS, I had to DAILY live with:

(6) Undiagnosed postprandial triggered HYPOTENSIVE EMERGENCIES with ATRIAL FIBRILLATION before FINALLY diagnosed in JULY 2019 (attached EXHIBIT E).
(7) My blood pressure drops to near 50/20 mmHg, oxygen to 85% or less and pulse drops as low as 23 beats per minute because the fibrillated beats have no cardiac output.
(8) Every such event is IMMINENT DEATH as I get weak, nauseated, dizzy, my vision becomes dim and sparkly, then I have a hot flash and pass-out or lay down before passing-out that is effectively a 30 to 120 minute coma (see EXHIBIT E, p. 9) where I defecate and vomit on myself (EXHIBIT E, pp. 2-3, 6) that has caused 2 Near-Death events.

(9) These events are usually after eating breakfast and/or lunch to which Dr. Badawi KHADER ABDELLATIF told me, "Don't eat the foods that cause it" which is every food, so he was telling me to starve to death.

(10) In JULY 2019, a McLaren Hospital doctor said I should have a pacemaker for the ATRIAL FIBRILLATION but CORIZON HEALTH INC. will not allow a pacemaker because of cost.

All aforesaid was caused by 10-years of Dr. Badawi KHADER ABDELLATIF not treating severe HYPERLIPIDEMIA that he saw in my blood serum levels of lab tests. I cannot take STATINS for high cholesterol because they drive my liver enzymes to near 900 (attached EXHIBIT L). He did not prescribe the needed QUESTRAN medication that lowers my cholesterol because CORIZON HEALTH INC. said it "costs too much". This refusal to treat HYPERLIPIDEMIA clogged my arteries and, in addition to 10-years of aforesaid ATRIAL FIBRILLATION and RENAL FAILURE, caused me to have multiple HEART ATTACKS and STROKES where Dr. ABDELLATIF sent me back to my cell to die at least 8-times in MARCH through JUNE of 2016. CORIZON Doctor Dr. Badawi Khader ABDELLATIF often told me of things like aforesaid maladies, "It doesn't matter" and "God will take care of it", rather than treatment and testing to determine their cause.

You should see that the Genocidal CORIZON HEALTH, INC. is removed as an MDOC Medical Contractor.

. Sincerely,

. -----

. Gary M. Northington -----

Dear RUDY & ERIN,

This is like my 07 JANUARY 2019 letter to Governor Whitmer with 24-pages of EXHIBITS that I snail mailed to you on 17 JAN 2020.

We've been busy subduing The Beast. God Bless!

. Sincerely,

. Gary M. Northington
