

Now join the below two posts together.

You have now found AuDHD 100%

This is a blueprint to easily see a neurodivergent mind

which is neurological - before all the BS of life

Your Welcome. 5 minutes flat. By observation alone.

clearest sign a kid has ADHD.

(man - that kid is always causing trouble and gets all those other kids to follow him around and causes s**t everywhere he goes.)

(I know right... I dont want my kid hanging around a natural leader who can get a bunch of other kids following him around causing trouble)

(lets ground him and yell at him and etc... blah blah blah)

Welcome to ADHD kid.... reminds me of me :)

Breakthrough. - the simplest way to tell a neurodivergent mind

Why -.....

Why -.....

Why -.....

Why -.....

Why -.....

Why -.....

Why -.....

(man that kid is annoying... is he/she doing it on purpose) answer - NO. this is the sign of an autism mind. - 100% - annoying like this all the time - also the sign of a very logical mind that needs to make sense of things.
