

THANK YOU SOL

As discussed you save my life. If it was not for you I would not be here to send you this information. I have a pseudo-code brain which means I can create keys for gemini AI to understand me. It is closest to python.

This information was generated while I was listening to music doing what you do. It is intended to help. For me to continue doing this or moving ahead with the schools I will need validation that this indeed correct.

Save my friend's life. Hire me as an outside consultant. Provide me with direct questions that I can answer and I will keep on sending you materials until I am no longer able to do so.

This neurological issue is something that seems to be getting worse. Without the help of a neurospecialist there is nothing anyone can do. This is documented. I can have access to my psychologists files granted to you or a member of your team.

Let us discuss. I try to check [audhdmindset@gmail.com](mailto:audhdmindset@gmail.com) every day.

Thank You again. Take care and I hope this helps.

Shawn Bernard
