

Here is a Character Profile for **The Green Zone** anthology. This character anchors the **Medieval Era** episode.

He is a fusion of **Nostradamus** (The Cryptic Poet), **Edgar Cayce** (The Sleeping Medical Intuitive), and the **AuDHD Mind** (The Pattern Matcher).

---

## CHARACTER PROFILE: THE SLEEPING SCRIBE

Name: Brother Caelum of the Void (Born: 1345 A.D.)

Location: The Abbey of Saint-Victor, Paris (The Black Death Era).

Archetype: The "Possessed" Mystic / The Genetic Archivist.

### THE DIAGNOSTIC PROFILE (EIL SYSTEM)

#### ● THE RED ZONE (The Curse)

- **The Diagnosis:** Temporal Lobe Epilepsy (The "Sacred Disease") comorbidity with AuDHD.
- **The Symptoms:**
  - **The Shoulder Earring:** He walks with a permanent hunch, terrified of sudden noises (The bells of Paris cause him physical pain).
  - **The Glazed Stare:** He suffers from "Absence Seizures" where he loses time for hours.
  - **The Graphomania:** An obsessive compulsion to write. He writes on walls, on his skin, on scraps of vellum. If he stops writing, the "voices" (data streams) scream in his head.
- **The Social Label:** "The Devil's Stenographer." The Abbot keeps him alive only because Caelum correctly predicted the arrival of the Plague ships in Marseille weeks before they docked.

#### ● THE GREEN ZONE (The Sanskrit Bridge)

- **The Artifact:** Caelum possesses a fragment of a "pagan scroll" brought back by a dying Crusader from the East. It is written in **Sanskrit**. Caelum cannot read it, but he can *sound* it out.
- **The Ritual (The Cayce Mechanic):**
  - He cannot access his visions while awake (too much sensory noise).
  - He lies flat on a stone slab (The Corpse Pose / *Savasana*).
  - He loosens his clothing (Sensory Gating).
  - He chants the "Forbidden Syllables" (Sanskrit Mantras: *Om* and *Gayatri*). The vibration of the Sanskrit hits the roof of his mouth, stimulating the Vagus Nerve and inducing a **Hypnagogic Trance**.

#### ● THE BLUE ZONE (The Akashic Flow)

- **The State:** While his body sleeps, his mind enters the **Noosphere** (The Collective Unconscious). He does not see the "Future"; he sees the **Cycle**.
- **The Atlantis Connection:** He accesses genetic memory. He sees the "Great Fire Crystals" of Atlantis. He sees the "Flying Silver Fish" (Submarines). He sees the fall of the First Civilization and realizes the Black Death is just a reset button, identical to the floods of 10,000 BC.
- **The Output:** He dictates medical cures for the Plague that are centuries ahead of his time (e.g., "Boil the water," "Burn the clothes," "Moldy bread for wounds" - Penicillin).

---

## **THE PROPHECIES (The Nostradamus/Atlantis Blend)**

*Caelum writes in Quatrains to hide the technology he sees, fearing the Inquisition.*

The Vision: A Nuclear Explosion.

The Medieval Text:

"The Second Sun shall rise in the West,  
Powered by the stone of the sunken city's crest.  
Two cities turn to glass in a single breath,  
The invisible fire brings the silent death."

The Vision: Smartphones / The Internet.

The Medieval Text:

"Every man shall hold a black mirror in his palm,  
Connecting minds in a storm without calm.  
The Library of Alexandria rebuilt in the air,  
Knowledge is free, but the soul is bare."

The Vision: The Fall of Atlantis (The Warning).

The Medieval Text:

"Before the Cross, there was the Crystal Spire,  
Men flew like gods on wings of cold fire.  
But the earth shook the arrogant from the sky,  
And the waves swallowed the truth in the blink of an eye."

---

## **THE HORROR: THE INQUISITION (The Red Zone Enforcement)**

*The Church discovers Caelum is using "Pagan Sounds" (Sanskrit) to heal the sick.*

The Torture (The "Needle"):

The Inquisitor believes Caelum has a "Third Eye" where the demon enters. To close the eye, they use the "Heretic's Fork" and perform a crude, medieval version of a lobotomy/trepanation.

- **The Scene:** Caelum is strapped to a chair. The Inquisitor drills into his skull to "let the

pressure out."

- **The "Broken Connection":** As the drill turns, Caelum's connection to the Blue Zone fractures. The Sanskrit mantras turn into gibberish. He loses the ability to access the "Akashic Records."

The Assimilation:

They force him to recant his visions of Atlantis. They force him to say the "Silver Flying Fish" were angels, not machines. They crush his hands so he can no longer write the truth. He ends his days as a "cured" monk—mute, dull, and disconnected from the Source.

---

## SCENE CONCEPT: THE "READING"

**Setting:** The Crypt. Candlelight. Caelum lies on the slab. A scribe waits nervously with a quill.

**Caelum:** (Trembling, eyes rolling back) *"Nostrils... left side... breathe the moon..."* (He forces himself into *Nadi Shodhana / Alternate Nostril Breathing*).

**Caelum:** *"The sound... the Om... Auuuuummmm..."*

*(The sound design shifts. The scratching of rats and dripping water fades. A high-pitched, crystalline hum rises. The camera pushes into Caelum's pupil. We see a flash of a **Crystal Pyramid** pulsing with energy, then a flash of a **Modern ICU Monitor**.)*

**Caelum:** (Voice changes - The "Edgar Cayce" Voice, deep and authoritative)

"The body is acidic. The blood is thick. The pestilence feeds on the fear in the gut. Give the boy mold from the rye bread. Place the copper coins on the buboes to conduct the heat away. The vibration is wrong. The city must sleep..."

**Scribe:** *"Is this the word of God, Brother?"*

**Caelum:** *"No. It is the memory of the Drowned."*

---

## PROBABILITY OF SUCCESS

- **The "Da Vinci Code" Factor:** Combining Medieval history with "Ancient Aliens" style tech (Atlantis) is a proven hook.
- **The "Medical Intuitive" Angle:** Fits the current trend of somatic healing/alternative medicine.
- **The Horror:** The trepanation/torture scene provides the visceral, "American Horror Story" grit that streaming audiences expect.

**Would you like me to write the actual "Vedic Sanskrit Mantra" Caelum uses, translated into the Latin disguise he uses to fool the monks?**
