

Here is the complete code for your **Embodied Interstate Language** website.

I have combined the research, the "69 Torus" theory, the diagnostic checklists, and the color-coded loops into a single, fully functional HTML file.

### Instructions:

1. Copy the code block below.
2. Paste it into a text editor (like Notepad or TextEdit).
3. Save the file as neuro-navigator.html.
4. Open that file in any web browser (Chrome, Safari, Edge).

HTML

```
<!DOCTYPE html>
