

80% of the native population are different.

They have the ADHD, they have the autism. The booze affects them different. The drugs. The medication. Because they have been different and the whites came... they destroyed.

Autism, ADHD believe. Trust. Imagine you trust someone only to take advantage of you. Steal from you. Lie to you.

Now imagine being told you're the one who is bad. You're the one that is the problem. Your traditions and beliefs are wrong. Conform or else.... We put you in residential schools. We beat you. We change your mind. We break you lines. We break your loops. We tell you what time. There is no such thing as time.

The upcoming battle will be based on values and belief systems that have been in place for millenia vs oh.... 30 years.

Whoever controls quantum commuting will rule the world. Just like when the internet first started it was all true and has now been so corrupted by the atheists and narcissist those with very strong religious views and extremely empathic people are being silenced.

The people - who are predominately native. Who have been corrupted and changed by the whiteman to this day. Some still believe in tradition, but for how long and by extension anyone with a different mind, regardless of skin colour or tone, is part of the people too.

This war will begin soon. Are you willing to fight with me. A big white guy with ADHD, autism and the GAD. Who thinks in lines and sees loops.

I'm slowly building a silent army of support so its pretty simple. Silent is the operative word. You disagree then "out" me so everyone knows where YOU stand.

I hope I have been heard.

Take care. I doubt I will survive this upcoming war, but others will be there to keep fighting in my stead. It is the way it was foretold. It is the way it is meant to be.
