TRAIL IMPROVED STOCK GENERAL SNOWMOBILE REQUIREMENTS

1. The snowmobile must be all original OEM parts as sent by factory unless specified.
2. Improved Trail Stock machines can run on mixed gasoline
3. Tethers are required in trail improved stock classes.
4. Tek-Vests are not required in trail stock improved classes, however highly recommended.
5. No change or modification is allowed unless specifically allowed by these rules. If these rules do not specifically allow a change or modification, then it must be assumed that the change or modification is not allowed.

All of the trail stock rules apply except for these following additions ALLOWED :

1. Reeds and reed blocks may be changed
2. Aftermarket exhaust cans permitted
3. 0.750 lug height allowed (No cutting, trimming or shaving of the track or rubber studs/snow lugs allowed. The track must be used as produced by the molder of the track.)
