

NOTICE TO THE PUBLIC

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER DAN RIVER WATER INC Has Not Met Monitoring Requirements

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During the compliance period(s) specified in the table below, we did not monitor 1 of 4 of the approved sample sites for the contaminants listed and therefore cannot be sure of the quality of your drinking water during that time.

CONTAMINANT GROUP**	FACILITY ID NO. / SAMPLE POINT ID	COMPLIANCE PERIOD BEGIN DATE	NO. OF SAMPLES / SAMPLING FREQUENCY	WHEN SAMPLES WERE TAKEN (Returned to Compliance)
TTHM and HAA5	D01	2 nd , 3 rd , & 4 th Quarters 2024	4 / QT	11/11/2024

(TTHM) - Total Trihalomethanes - includes Chloroform, Bromoform, Bromodichloromethane, and Dibromochloromethane

(HAA5)- Haloacetic Acids - includes Monochloroacetic Acid, Dichloroacetic Acid, Trichloroacetic Acid, Monobromoacetic Acid, Dibromoacetic Acid

What should I do? There is nothing you need to do at this time.

What is being done? While samples were taken from 4 separate locations during these monitoring periods, it was discovered that one of the sites was not on the approved sample site plan on record with the state. Revisions have been made to the sample site plan to address the discrepancy.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

NOTICE TO THE PUBLIC

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

Reporting Requirement(s) Not Met for DAN RIVER WATER INC

DAN RIVER WATER INC failed to conduct an operational evaluation and submit a written report to the State for a disinfection byproducts (DBPs) operational evaluation level exceedance. The operational evaluation and written report were required to be completed no later than 90 days after being notified of the analytical result that caused the system to exceed the operational evaluation level in August 2024. We did not complete the operational evaluation and written report within the required timeframe.

Although this situation does not create a health risk, as our customers you have a right to know what happened and what was done to correct the situation.

What should I do?

There is nothing you need to do at this time.

What is being done?

Dan River Water, Inc. changed location sample sites and will increase flushing efforts to resolve any future issues.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.
