We export with confidence and commitment

- Soybean
- Yellow corn
- Sesame
- Shea nut
- Raw/unrefined she
- Shea de-oiled cake
- Soybean meal

OUR VISION

We gave value to our partners on creating long-term and sustainable relationships

CROPIKANO

sheanut tree

CROPIKANO

CROPIKANO

More than 50% of World supply comes from Nigeria!

CROPIKANO

Nuts of the shea tree, also known
as the shi tree or vitellaria

CROPIKANO

According to the Food and Agricultural Organization (FAO), Nigeria is the world largest producer of Shea nut, capable of producing 500,000mt, with the wildy grown Shea trees predominant in 21 states across the country

Sheabutter is derived from the sheanut tree, with the botanical name *Butyrospermum parkii* or *Vitellaria paradoxa* and is a common wild tree that grows extensively in the Africa.

Raw / unrefined shea butter is the fat extracted from the nut of the African shea tree. It is widely esteemed for its medicinal purposes; and it is also known for its role as a moisturizer in cosmetic products.
