

Realms of Akasha

Week 12 Completion, Bonus + Q&A

To summarise this course, you now know about the Universal Hierarchy, awareness, clairs, protection, clearing, prepare to visit your records, access your records, call your records around you and reading someone else records

- Do at least 5 practices between others in the group before you do reading for someone outside of the group.

1. Ask for a message
2. Ask a question your client for requires an answer for
3. An issue they want to be resolved
4. An issue in their current life they require healing
5. Another issue and this time the guides might send you to a past life

When you do deeper healing for example in present life childhood or past life, you will mostly be shown that your client had a soul contract or made an agreement that is not serving them in this lifetime/current moment. The guides will guide you to communicate with the child or past life person and ask them if they are ready to release the agreement or contract they made. Also ask your client if they are ready to release that contract. When they say yes, ask them to close their eyes and imagine they are ripping the agreement/contract and releasing it. If there is any resistance, ask why. Most of the time there might be other people involved in the scenario so you can ask the client to forgive those involved as at the soul level they were there to teach you a lesson. Then you can proceed to rip the contract.

Sometimes you feel guided to bring the gifts or talents that the past life of your client had to this lifetime and integrate them. So you can ask your client to close their eyes and invite the gifts into them, they can imagine it as a beautiful ball of light that is coming down their crown and integrating in them as they take a deep breath in and fill their body being filled with this light

Whether you would like to offer readings to others in future as a service or not, remember by practising giving readings to each other in the group, you are developing your awareness and clairs so you can deeper connect with your own records and guides and interpret their messages deeply.
