BSSLC Employee Spotlight

Krystal Johnson

Krystal Johnson was nominated for an Employee Spotlight by her supervisor, Gabriel Lewis, who said “First and foremost, Krystal is very dedicated to BSSLC. She is the senior leader of our department. Always willing to support and train all new managers and employees. Has a true Love for BSSLC. Krystal knows her job very well. She is the first manager to promote Employee of the Month programs and team building.” Krystal has worked at BSSLC for 24 years in the Food service department, starting as a FSW I, then a FSW II and FSW III, and in January 2020 she became a mananger IV.

What motivates Krystal? “The individuals motivate me. They didn’t ask to be here. This is their home. When it comes to their food, I try my best to make sure our department is doing our best, as in nutrition, taste, textures, and presentation. Many days are a struggle, but I encourage our staff to push through. I help in any area that is needed. From sweeping and mopping to serving and preparing food and taking out hot shots when there is a driver shortage. You must love what you do and always lead by example. The one thing I would like to share is always respect your staff. Listen to their concerns and remember everyone has feelings.”
