

## MMM VIRTUAL PRELUDE AGENDA

Saturday, August 22, 2020, 10am-2pm PST

---

10:00 AM

Welcome Remarks & Introduction of Moderator -- **Sabine Hazan, MD**

10:05 AM

Intro to Meeting -- **Howard Young, PhD (Moderator)**

10:15 AM

**Microbiome 101 -- Neil Stollman, MD**

Objective: Become familiar with the human gut microbiome and its role in health and illness

11:00 AM

**Q&A with Dr. Stollman**

11:10 AM

**Implications of the Gut Microbiome in Cancer -- Yinghong Wang, MD**

Objective: Describe how the gut microbiome impacts the patients' outcome in cancer and cancer treatment related adverse events, and how microbial manipulation may transform cancer care.

11:30 AM

**Q&A with Dr. Wang**

11:40 AM

**Developing Standards for Microbiome Research and Product Development -- Scott Jackson, PhD**

Objective: Describe the importance of standards for microbiome measurements to support research investigations and clinical/commercial translation of microbiome science

12:00 PM

**Q&A with Dr. Jackson**

12:10 PM

**From Fecal Transplants to Microbiota-Based Therapeutics -- Alexander Khoruts, MD**

Objective: Discuss intellectual property and product development in the microbiome industry

12:30 PM

**Q&A with Dr. Khoruts**

12:40 PM

**The Microbiome and Disease, with a Look at COVID-19 -- Sabine Hazan, MD**

Objective: Provide an understanding of the microbiome and how it can be used to fight diseases including COVID-19

1:00 PM

**Q&A with Dr. Hazan**

1:10 PM

**MMM 2021 Introductions & Acknowledgments**

**Panel Discussion, Q&A with All Speakers**

1:55 PM

Closing Remarks, Announcements
