#	RESPONSES	DATE
1	Really enjoyed the webinar! Thanks for sharing.	1/8/2021 9:17 AM
2	Good for her, starting the company, running the trials. Who would have thought we would go from fecal transplants to outpatient COVID treatment! I will never disrespect the work of the poop doctors again. :)	1/8/2021 9:16 AM
3	THANK YOU	1/8/2021 8:49 AM
4	I appreciate the work she is doing to advance patient care	1/8/2021 8:44 AM
5	A first-class presenter! Her lecture was on par with the best academic/university physicians I've seen. (I'm sure she'd do well as a professor, if she chose to.) She knew what she wanted to say and followed-through. Pace was brisk, appreciably so, just right. Level of detail was exactly right for a practicing MD like me.	1/8/2021 8:20 AM
6	Excellent speaker. Great information!	1/8/2021 8:06 AM
7	Impressive energy - very inspiring.	1/8/2021 7:29 AM
8	Very good presentation. I am very impressed with the scientific methods used.	1/8/2021 7:04 AM
9	Thank you!	1/8/2021 6:45 AM
10	Please have Dr. Hazan return for future presentations. She was great.	1/8/2021 6:10 AM
11	Dr. Hazan presented her information very well. The videos of her staff explaining study supplies were very helpful. The discussions from the attendees was another learning opportunity.	1/8/2021 6:04 AM
12	Was excellent	1/8/2021 5:57 AM
13	Great speaker	1/8/2021 5:36 AM
14	Hazan was riveting, poised, gifted presenter	1/8/2021 5:14 AM
15	thank you for allowing an interested non-medical person to participate.	1/8/2021 4:52 AM
16	Grateful	1/8/2021 4:41 AM
17	Fascinating! Love her enthusiasm and knowledge. Appreciate docs who are advocating for early treatment.	1/8/2021 4:40 AM
18	Dr. Sabine Hasan m.d with your expertise in gastroenterologist specialization definitely brings continued sight into medical research in patient treatment and medicine. thanks	1/8/2021 12:52 AM
19	Great speaker	1/7/2021 11:30 PM
20	Outstanding speaker. Question for her: Does she believe that lacto-fermented foods help the gut microbiome to be healthy, and if so, might a diet that includes moderate amounts of these foods support the immune system? I heard she recommends Aactiva, kefir and melanuka honey, and I wonder about lacto-fermented veggies (cabbage as lactofermented sauerkraut, etc). Thank you! Dr. Scholz	1/7/2021 10:10 PM
21	What great energy! I fondly recall those days!	1/7/2021 10:03 PM
22	Sabine gave an excellent presentation demonstrating how important it is for all practicing clinicians to get involved in clinical research.	1/7/2021 10:02 PM
23	Excellent! Thank you for your dedication to taking such wonderful care of your patients, and sharing your meticulous and truthful research Dr Hazan!!	1/7/2021 9:53 PM
24	fascinating research	1/7/2021 9:38 PM
25	Very interesting presentation on a critical and timely topic. Please keep our organization informed of your study conclusions, Dr. Hazan. Thank you for your dedication.	1/7/2021 9:38 PM
26	Thank you.	1/7/2021 9:29 PM
27	Truly heartening to see her spunky can-do attitude and great care for patients and science and ability to tolerate bureaucratic hassles (the trial notebook of regs was daunting! Excellent	1/7/2021 9:23 PM

choice and info and glad to see the Dr. McCullough network ever expanding. So glad to be part of AAPS!

28	Thank you Dr Hazan, Your presentation was outstanding & highly informative!	1/7/2021 9:22 PM
29	Brilliant doctor. I will support this project and tell everyone how effective it is.	1/7/2021 9:16 PM
30	Great speaker!	1/7/2021 9:16 PM
31	She was GREAT!	1/7/2021 8:59 PM
32	I'm sorry, I was a bit late, but I do not see how the microbiome affects Covid, though that premise was presented as a prominent part of the work.	1/7/2021 8:53 PM
33	Thank you for your efforts, and your creativity. I know this research will make an impact and save lives.	1/7/2021 8:49 PM
34	Zithromycin is indicated in early treatment and was mentioned. Did I also heard erythromycin???	1/7/2021 8:46 PM
35	I would hear more from her on her other research projects	1/7/2021 8:43 PM
36	K	1/7/2021 8:38 PM
