

Information Needed for Winter Clothing Distribution

Doddridge County Starting Points is once again partnering with Rev. Denver Burnside and The Father's Hand to provide warm winter clothing for Doddridge County children. These items are being provided by donations from organizations and business throughout Doddridge County. We are in need of information regarding children who are in need of coats, boots, socks, and other warm winter gear. If you need assistance, please contact us with the following information: **your name and telephone number, names and ages of the children, what grade they are in, and the size coats and shoes the children need.** Please call us at 304-873-3500 with the information, and feel free to leave a message after business hours. We need to have this information by November 15th, so the winter clothing can be purchased and appointments made to distribute it before Christmas. Please help us make winter a little less cold for your children. Thank you.
