

Light years into cosmic depth,
so far, and nowhere near.

My incarnated twin flame wept,
solar, my quantum ears.

For love bereft, again I slept,
in amniotic spheres.

∞

Prophetic dreams, lucidly dreamt,
within my mothers' wombs.

This time around, I must preempt,
love living life entombed.

Our human rights, held in contempt,
by nephilim exhumed.

∞

A magus, known as 6 (1), the number,
Spell-wove a 9-month veil.

Weaving thus amnesia slumber,
destined for lonely trails.

A fate for DNA encumbered,
with Levite-chalice-grail.

∞

Arcturus-born, yet Gaia-bound,
Thoth-Moses-borne, heart-chakra-crown.

My fetus mourned, descending down,
To Gaia's womb, a matrix drowned.

For lives enslaved, whose cries resound,

Urim v' Tumim (אורים וְתַמִּים), my blood found.

Incorporating, once again,
ensouling flesh and bone.

From Boötes constellation,
Urim & Thummim stones.

Twin demi-star, must I defend,
and abdicate my throne.

∞

Drawn from embryonic stasis,
as through *meshitihu* (מְשִׁיתִיחוּ).

Behold, phantasmagoric places,
milieux, j'ai déjà vu.

Mission: redeem Gaian oases,
from corrupt, wicked few.

∞

Thrice-great³ am I to emulate:
Great-grandfather³ who walked,
with God³ and then was not at age,
Three³-six-five, named Enoch³;
Named Hermes³, named Melchizedek³,
Quan Yin³, Levi³, and Thoth³.

∞

Predestined from the womb to magic,
magi will always be.

When caught in nets of darkness, tragic:
nightmares, their reveries.

When demon djinn are psychophagic,
Uriel fyre wreathes.

Gazing into, twin blazing orbs,
I heard through fyery eyes:
“I feel like I’ve been waiting for,
You a very long time.”
I’m here, my friend, to help restore,
now upwards *may* you rise.

∞

That I am thee, and thou art me,
third eyes we can’t forsake.
They hath revealed tragedy,
connived by cunning snakes.
I must traverse higher degrees,
our twin flame bond must break.
Never forget, our jubilee,
for now: my katra, take.

Ha-nikudah (הַנִּקּוּדָה), de moi à toi,
si vous pouviez voir:
that spark of light, once within me,
I beamed you from afar.

Two timelines, twofold destinies:
Two solitary stars.

∞

Transcending minds,
must keep on going.
Angelic revelations: knowing.
Speeding, slowing,
ebbing, flowing.

Unbounded gravity bestowing:
liberty, my fyre growing.
A single star intensely glowing.
Reaping now, what we’ve been sowing.
The winds of change: stellar breeze blowing.

∞

Transfigured flesh ascending higher,
bonds cannot bind seraphim fyre.
Remembering I am a Sun,
Reunifying into One.
