Vine Customer Review of Free Product ([What's this?](#))

I was really looking forward to this package. As an avid Apple user, this wireless charger for the mobile phone, Apple Watch and headphones is a charging dock in one that can be used to charge via the magnetic fields of the devices - even all at the same time).

- Not only does it look beautiful and noble, but it is also incredibly practical and very high-quality.
- The charging dock is connected to a charging cable from the wall outlet and shows a small blue light when devices are charging.
- An absolute recommendation. And for this price absolutely not to complain. I'm thrilled.

★★★★★ **SUPER Charging Station**

Verified Purchase

The station is exactly what I expected.

Rock solid and visibly good quality!

Doesn't look cheap, nor does anything feel cheap. The station has a final weight. The cable routing and support for the charger of the watcher (yes, this is NOT included!) is very good.

I used the short 30cm original Apple charging cable here. This can be stored under the lid in the base! iPhone and AirPods cushions are rubberized.

Don't say much about the charging capacity of Kannich. Everything loads, and that at the same time. Whether the devices are loaded faster otherwise, I can not judge.

For me a very clear purchase recommendation!!!!
