

Agency creates shared momentum and business outcomes.

The Agency Engine is a virtuous cycle that powers organizational Strategy & Systems.

In Greek notation, Λ marks lift — an upward force that stabilizes the system and accelerates whatever momentum is already there.

***SIGNALS** function as a catalyst inside the engine, turning clarity into shared direction and motion.*

SIGNAL	Leader Signal	What it Creates
Trust	"You'll know what to expect — and why."	Safety + predictability
Pathways	"You have what you need to move forward."	Clarity + navigability
Collective Insight	"Your engagement helps us align."	Shared understanding + alignment
Agency	"Let's do this."	Confidence + action
