To all pet lovers,

This is my full throated, heartfelt endorsement of Chris Penketh as the best trainer you and your dog could ever want. His experience and expertise are conveyed on his resume, and I will confirm , reflected in his work. But beyond that, he is magic with animals. I used two very high-end trainers before Chris , and the were fine, but the difference is, my dogs, Daphny and Newton , LOVE HIM. He is patient and loving and fully invested—not only in training his pups, but also their owners, and the dogs respond and all is happy and easy if you follow his guidance.

I also engage Chris to walk Daphny and Newton and periodically care for them when I travel. They return calm and clean and sooooo happy.
In addition to the above, Chris is beyond accommodating , trustworthy and well, soulful.
In case I haven't made it clear, I could not give a more glowing endorsement.

Sincerely,
Julia Sorkin

TESTIMONIALS

We value Chris and his work with our beloved pets, he has a wonderful sense of love and affection for our doggies and brings out the absolute best in them with his training. He has also been instrumental in helping us implement some much needed strategies in our home which reinforces the training they receive with him. When we are out of town, there is no one we trust more than Chris to look after our dogs and he is so reliable and never let us down. We cannot rate Chris Penketh more highly.
