Market Overview

- The global sexual health supplements market size is expected to value at USD \$257.7 billion in 2023 and is expected to reach USD 741.6 billion by 2033.
- The sexual health supplements market is changing as customers demand better-performing natural supplements to enhance sexual health. In the past, most sexual health supplements were made with synthetics & blends, but due to increasing awareness about the use of natural products, people prefer sexual health supplements made up of natural ingredients.

Key Selling Points

- Two supplements that are popular for people who want to support normal circulation are the amino acid L-arginine and the herb maca. This powerful formula contains natural ingredients that are going to maximize the results of performance and endurance.
- **L- Arginine:** is an amino acid that helps the body build protein. It may improve sexual function in men with erectile dysfunction due to a physical cause.
- **Maca:** is a Peruvian origin plant that contains various health benefits, such as boosting libido, increasing energy & mood. Our formula offers a combination of maca root & herb for optimum benefits.
