Key Selling Points

- Matcha, a uniquely harvested green tea, supports brain health, certain organ protections because of the large nutrient profile.
- The EGCG (green tea) provides excellent benefits to the body. It stimulates the immune system and balances cholesterol levels. It contains a high percentage of protective polyphenols that give antibacterial, antimicrobial, and health-enhancing properties. It also has bioactive compounds such as catechins and EGCG that act as antioxidant compounds in the body.
- Shiitake and Reishi mushrooms both have impressive health promoting properties. Shiitake mushrooms contain amino acids and are rich in B vitamins. Reishi mushrooms promote vitality, help enhance the immune system, improve sleep and lessen fatigue.
- Maitake mushrooms are considered an adaptogen, meaning they help the body adapt to stress and normalize body functions.
