Date: 24.03.2025

Dear Organizers,

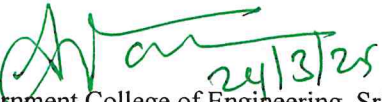

We are writing to express our sincere gratitude to the Global Experts Power Seminar organizers for the opportunity to participate in the recent seminar. The session was highly enlightening, and the topics on **Quantum Computing and Security in AI** provided invaluable knowledge to our students at Government College of Engineering, Srirangam, Trichy.

We would like to share a few key takeaways and feedback from our side:

- The speakers, Dr. Kathrin Kind and Mr. Bharat, delivered engaging and informative sessions, making complex topics more accessible to our students.
- The interactive Q&A sessions were particularly beneficial, allowing students to clarify doubts and gain deeper insights.
- To further enhance the learning experience, we would appreciate receiving session materials or recorded versions (if available) for our students to revisit key discussions.
- We would be delighted to collaborate on similar expert sessions in the future to continue enriching our students' learning experiences.

Once again, thank you for organizing such a well-structured and enriching seminar. We look forward to more opportunities to engage with your organization.

Best regards,

Government College of Engineering, Srirangam, Trichy
