Date: 18.03.2025

On behalf of Government College of Engineering, Sengipatti, Thanjavur, we sincerely appreciate the opportunity to participate in the Global Experts Power Seminar. The session was highly insightful, and the topics on **Quantum Computing and Security in AI** provided valuable knowledge to our students.

A few key takeaways and feedback from our side:

- The speakers, Dr. Kathrin Kind and Mr. Bharat, delivered engaging and informative sessions, making complex topics more accessible to the students.
- The interactive Q&A sessions were particularly beneficial, allowing students to clarify doubts and gain deeper insights.
- Going forward, it would be helpful to receive session materials or recorded versions (if available) for students to revisit key discussions.
- We would love to collaborate on similar expert sessions in the future to continue enhancing our students' learning experiences.

Once again, thank you for organizing such a well-structured and enriching seminar. We look forward to more such opportunities.
