

We Enhance and Optimize Social Media Management and Marketing

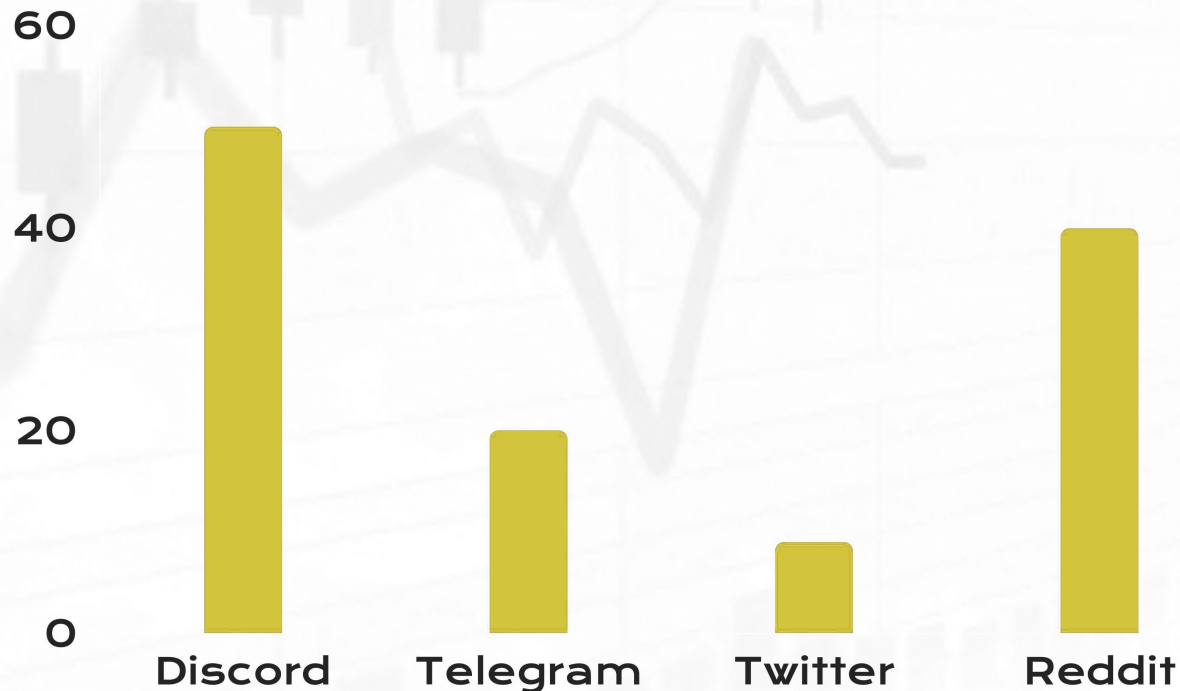

HANGRYFEED SERVICES

A COMPLETE MARKETING SOLUTION

The Age of Social Media

With social media impressions dramatically overtaking all other forms of marketing, it is crucial for businesses to capitalize on this increase. Here are some of the media with the greatest increase in Monthly Active Users (MAU) this year (in millions).

All-In-One Marketing

Tired of paying 50 different freelancers for similar jobs? Hangryfeed Services focuses on providing a multi platform and multi-utility service. Unlike many services, we are able to facilitate your needs for social media management and content creation as well as marketing and growth. We use Discord to permeate into other social mediums, as well as integrating our professionals into the core team of your project. With a team of 20+, we try to provide flexibility and the confidence that no matter what campaign you want to launch, we will be able to facilitate in hopefully every case. We also provide extra services that boost your project's marketing presence. These services are divided into budget-based and non-budget-based. Budget-based services are additional, specialist services that would be requested by the client with a delegated budget to achieve at a discounted price through the Hangryfeed Team and its contacts. Non-budget based services are services that are considered a default and can be requested at any time once our monthly retainer is paid. You don't necessarily need to engage in all our services, those listed are just the ones available to you when you have made payment.

Types of Campaigns

- ☑ Discord brand-awareness campaign

Pitch

Organic Traffic & Ad-Campaigns

When a client would like to delegate a budget for an organic growth campaign, the Hangryfeed Team will produce a document explaining the best strategy and type of campaign to move forward and the targets that are achievable with certain budgets. Hangryfeed will handle these budgets unless the campaign is reliant on a single large payment, in which case the client can pay the relevant party directly and Hangryfeed will simply locate and secure the deal.

Hangryfeed strives to make sure all promotions and campaigns are organic. We never engage in "botting", "spamming" or any other type of low-quality marketing. All our campaigns operate on the basis of posting graphics, links, and texts about your project in various outlets with which we have connections, thus attracting audiences of said outlets to your project. Our partners recognize Hangryfeed as a marketing agency and will give us a priority and discounted promotion to ensure your project is at the top end of the campaigns out there.
