			Deciduous Shrubs 10"- 24" \$2.50 each (Plus Tax)
Quantity	Species	Potential Height	Description
	Almond, Russian	3'-5'	A hardy, suckering shrub. Dense thicket excellent for wildlife.
	Buffaloberry	6'-14'	Attractive silver leaves. Red fruit can be used for jelly.
	Caragana	6'-14'	Very hardy & long-lived. Yellow flowers followed by seed bearing pods.
	_Cherry, Nanking	12-20	Showy flowers and sweet red fruit. Good for jelly
	Chokeberry, Black (Aronia)	5'-8'	Shiny green foliage turns red/purple in fall. Tart fruit used in jelly.
	Chokecherry, Common	12'-25'	Suckering habit, fruit for jelly. Wildlife food & cover.
	Cranberry, Highbush Currant, Black	8'-12' 3'-6'	Red fruit for jellies. White flowers in the spring. Need 2 for pollination. Small shrub, adapted to various soils. Edible fruit for jellies & wildlife.
	Currant, Golden	3'-6'	Small shrub, adapted to various soils. Edible fruit for jellies & wildlife.
	Dogwood, Redosier	7'-10'	Likes moist soil, but adaptable. Red bark, white flowers.
	Grape, Riverbank- (Vine)	20'-30'	Native Grape - may climb to height of 20 to 30 feet by tendrils. Jellies & wine.
	Honeysuckle	12-20'	Fragrant white, pink or red flowers. Inedible red or orange fruit.
	Juneberry	6'-15'	Dark purple, edible fruit, slow-growing
	Lilac, Common	8'-12'	Suckering habit. White to purple showy, fragrant flowers.
	Lilac, Villosa	6'-12'	Dense, non-suckering. Blooms later than common lilac. Pink flowers.
	Lilac, White	8'-12'	Same as common Lilac except has white flowers
	Plum, American	8'-10'	Suckering habit, thorny. Edible fruit for jellies. Need 2 plants.
	Rose, Hansen Hedge	4'-6'	Suckering habit, thorny. Single pink flowers, red rose hips. Native. Suckering shrub with silvery leaves and fragrant flowers.
	Silverberry	12-20' 10'-15'	· · ·
	Sea-buckthorn	10-13	Silvery-green foliage and orange fruit that persists through winter Deciduous Trees 10"- 24"
		D 4 4 1	\$2.50 each (Plus Tax)
Quantity	Species	Potential Height	Description
	Apple, Domestic	12-20'	Needs a cross pollinator; apples vary in size and color.
	Apricot	12'-16'	Small tree. White to pink flowers. Small edible fruit. Self pollinating.
	Aspen, Quaking	25'-60'	Bark color from chalky white to olive-gray. Needs moist site.
	Birch, Paper	30'-55' 30'-60'	Chalky white peeling bark when 3 or 4 years old. Nice ornamental tree.
	Boxelder Cherry, Black	25'-50'	Relatively fast growing, short-lived tree of irregular form. Fruit more astringent in taste than chokecherry. Fragrant white flowers.
	•	60'-90'	
	Cottonwood, Native Cottonwood, Siouxland	40'-50'	Largest & fastest growing tree in the state. Native to moist soils.
	-		Large, vigorous male tree, leaf rust resistant (cottonless). May reach 70 feet.
	Crabapple, Red Splendor	15-25	Hardy variety. Pink fragrant flowers, pea sized fruit, burgundy fall color
	Crabapple, Siberian	15'-25'	Hardy variety. White flowers, yellow fall color, pea-sized fruit.
	Elm, Siberian	25'-50'	Very hardy, fast growing with brittle wood subject to breakage.
	Hackberry	40'-60'	Native, good replacement for the American Elm (similar form).
	Hawthorn, Arnold	15'-20'	White flowers in the spring. NON-Edible fruit.
	Linden, American	50'-70'	Also called Basswood. Large stature, shade & aromatic flowers.
	Linden, Little Leaf	30'-45'	Medium sized, pyramidal to rounded crown. Flowers fragrant.
	Maple, Amur	15'-20'	Small specimen tree. Attractive reddish fall colors.
	Maple, Red	45'-65'	Medium to large maple. Prefers adequate moisture & neutral to acid soil pH.
	Maple, Silver	40'-65'	Fast growing. Often called soft maple. Subject to iron & manganese chlorosis.

40'-70' Slow growing, long-lived, large, hardy tree. Has deep taproot.

50'-75' Long-lived with spreading crown. Leaves turn brownish-red in fall.
