# INTRODUCTION

In a world where advertising is omnipresent, many spaces remain unexploited or underused. However, these locations represent a real financial opportunity when they are optimized effectively.

Powerfull Lifestyle positions itself as an innovative player in the monetization of advertising spaces, by transforming these strategic locations into sources of passive income for our clients and investors.

Thanks to our expertise and a successful business model, we allow our partners to access a growing market, without management constraints.

# VIABILITÉ

Advertising is a fundamental pillar of the global economy, serving as a key driver for businesses to promote their products and services. Its importance is such that, despite economic fluctuations, the demand for advertising remains constant, if not growing.

Recent projections illustrate the robustness of this sector:

In 2024, global advertising revenues are expected to surpass \$1 trillion for the first time, marking significant growth over previous years.

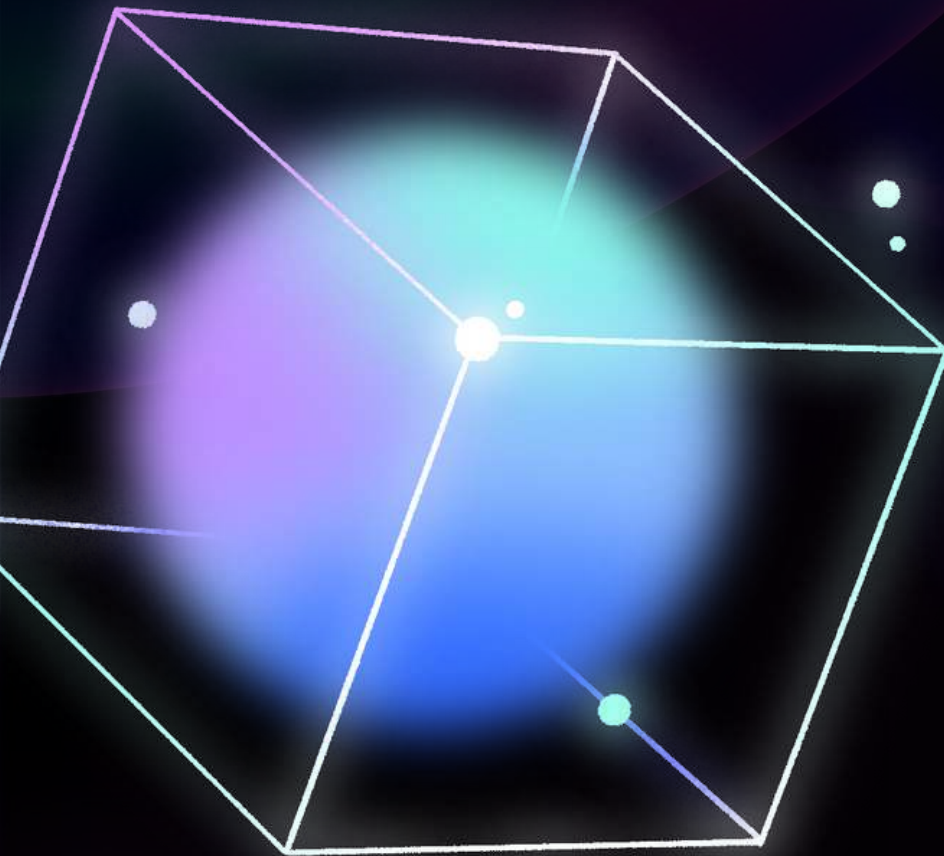

The digital advertising sector, in particular, is experiencing remarkable growth, with an estimated 73% share of total advertising revenues by 2025.

Advertising is not just about promotion; it is the vital link between businesses and their consumers. It helps to:

Increase visibility: Businesses use advertising to stand out in a competitive market.

- Stimulate demand: An effective campaign can create or revive interest in a product or service.
- Educate consumers: Inform about the new features, benefits or improvements of a product.
- Thus, advertising remains an indispensable tool, ensuring companies a continuous presence in the market and meeting the evolving needs of consumers.

Given its sustained growth and its crucial role in the business strategy of companies, it is clear that advertising is an unstoppable sector. Investing in this field offers solid and sustainable opportunities, reflecting a perpetual and universal demand.

# HOW DO WE GENERATE PROFITABILITY FOR OUR CLIENTS?

At Powerfull Lifestyle, we have developed a simple, transparent and profitable business model, allowing our clients to invest in the advertising sector without having to manage any operations.

**Customer investment**

Our clients invest capital in our advertising monetization program.

**Rental of advertising spaces**

With this capital, Powerfull Lifestyle rents strategic locations at negotiated rates from partners.

**Subletting to professionals**

We then make these spaces available to advertisers and companies who wish to promote their products and services. Thanks to our network and our marketing expertise, we optimize subletting rates to maximize profitability.

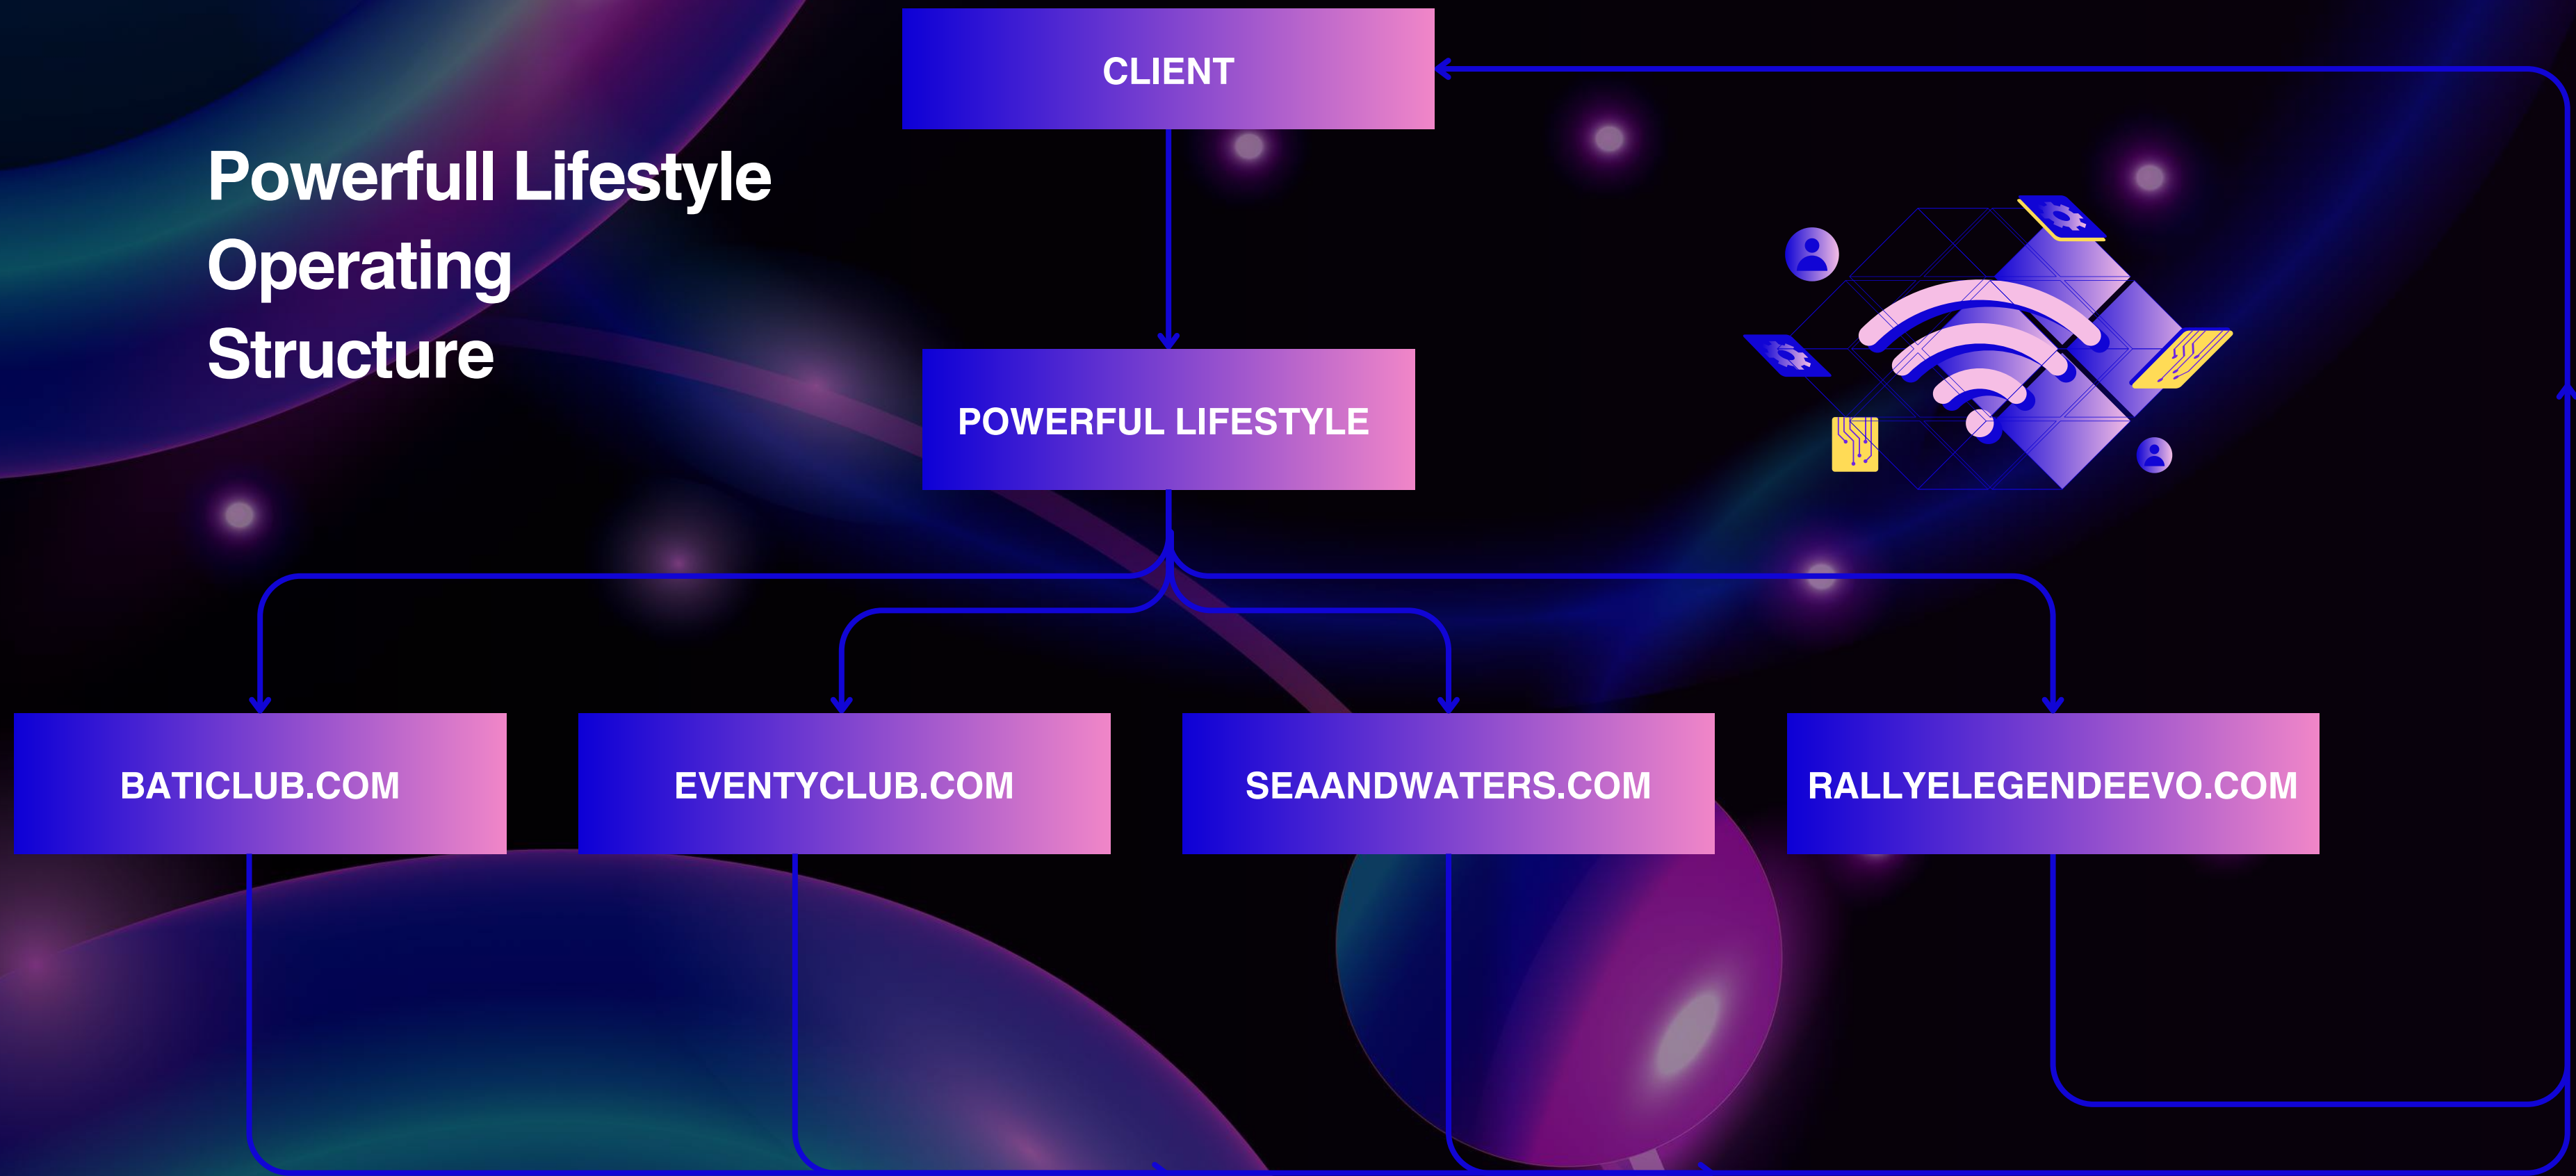

The difference between the initial rental price and the sublet price is the profit margin. This margin is then divided in two:

- ✓ 10% guaranteed after 90 days for the client
- ✓ "Powerfull Lifestyle "reinvests to develop new spaces and optimize performance
- ◆ A win-win model: Our clients receive regular income without effort, while benefiting from a turnkey system that fully exploits the potential of the advertising market.

# Powerfull Lifestyle Operating Structure

## Powerfull Lifestyle

Flexible entry ticket : > 10 000

Short time frame : 90 days

Early withdrawal available on conditions

Direct relationship with team
