LEAVE YOUR LEGACY on the next 100 years...

Thank you for helping to grow the Legacy Tree in the LSU College of Education. Your tax-deductible gift will provide support for faculty, students, research, and other College of Education initiatives and partnerships. Please check your preference from the list below:

- ☐ Bronze Acorn (\$1,000)
- ☐ Gold Leaf (\$500)
- ☐ Silver Leaf (\$250)
- ☐ Bronze Leaf (\$100)

Select your wording choice from the list below and print the name to appear on the leaf or acorn:

- ☐ In Honor of _____
- ☐ In Memory of _____
- ☐ In Appreciation of _____
- ☐ Name only _____

Name: _____

Address: _____

City: _____

State/Zip Code: _____

Telephone: _____

e-mail: _____

Payment Information

Please return this form with your check made payable to the LSU Foundation. Please note "Appeal Code: College of Education 08TRE" on the memo section and mail to:

CENTENNIAL CELEBRATION

Originally named the "Teachers' College" by the Louisiana Board of Regents, the LSU College of Education was founded in 1908 with two faculty members. By 1915, the college had added a demonstration school. From its beginning, the college has prepared leaders including supervisors, principals, superintendents, and university faculty and administrators.

By 1939, the college expanded to include the former School of Health and Physical Education, renamed the Department of Kinesiology in 1990. This department grew from a primarily teacher education-based professional curriculum to nationally and internationally recognized research and scholarship programs that generate and disseminate knowledge about all aspects of human movement and its effects on physical activity.

Today the college has expanded into a collaborative unit that prepares educational and wellness professionals. The college oversees various professional certification programs and spans four colleges. The college also maintains the K-12 University Laboratory School that has been ranked among the nation's top 20 percent of public high schools by *Newsweek* and houses the state's first International Baccalaureate Programme.

Today's College of Education employs more than 200 faculty, instructors, and professional staff to present students with unique opportunities for challenging, rich, and collaborative experiences.

College of Education Dean M. Jayne Fleener added, "As we embark on our landmark year, please join us in a celebration of our past and commitment to an engaged future."

EDUCATION

THE LEGACY TREE

A Century of Growth

LEAVE YOUR LEGACY ON THE NEXT 100 YEARS...

Would you like to leave a legacy of your time spent at LSU on the walls of Peabody Hall? Are you looking to honor the memory of a family member? Were you inspired by a mentor, professor, teacher, coach, or friend? The College of Education has developed a way for you to join us in celebrating our past, present, and future during this landmark year.

Through the College of Education Legacy Tree, you can help us grow our commitment to the future. By purchasing a leaf or acorn, you can help fund College of Education academic initiatives, community partnerships, and professional development. Your generous gift to the Legacy Tree will enable faculty, staff, and students to engage in challenging, rich, and collaborative experiences.

Donations to the Legacy Tree throughout the Centennial Celebration Year will be recognized at a special ceremony in 2009 when we will unveil the first embossed tributes to this enduring inspiration that will forever trim the halls of Peabody. We invite you to partner with us by leaving your legacy on the next 100 years.

LSU COLLEGE OF
EDUCATION

CENTENNIAL CELEBRATION

1908-2008

Early 1900s... Now

In August 1908, the Teachers' College at LSU was created. With two faculty members, the college prepared students for positions as supervisors, principals, or parish superintendents. Alexander B. Coffey served as the first dean beginning in 1909.

One hundred years later, the College of Education employs more than 200 faculty and professional staff to provide rigorous academic programs highlighted by challenging, rich, and collaborative experiences. Faculty research informs these programs while advancing the disciplines.

The college has expanded to become a collaborative unit that prepares both educational and wellness professionals. For 100 years, the college has prepared thousands of leaders, including university faculty and administrators.

LSU COLLEGE OF
EDUCATION

CENTENNIAL CELEBRATION

1908-2008

1910s... Now

In 1915, the Demonstration High School opened. The school's creation provided practical and accessible opportunities for university student observation in education, psychology, and home economics.

Now called the Louisiana State University Laboratory School, this highly acclaimed K-12 school has been ranked by *Newsweek* in the top 2.5 percent of public high schools in the U.S. and consistently proclaimed one of the ten highest performing schools in the state by the Louisiana State Department of Education.

The Lab School offers Advanced Placement courses, concurrent enrollment at LSU, and the state's first International Baccalaureate Programme. Exemplifying best practices in instruction and curriculum, the Lab School offers opportunities for collaborative partnerships, research, and outreach. The Lab School has the highest percentage of National Board Certified teachers in the state.

CENTENNIAL CELEBRATION

1908-2008

1920s... Now

In 1925, Peabody Hall opened on the new LSU campus.

Today the College of Education offers state-of-the-art technology laboratory space for both P-12 professional education and kinesiology students. Computer laboratories are equipped with interactive multimedia capabilities to provide challenging and rich learning experiences.

In addition, kinesiology offers pedagogy and exercise physiology laboratories. These laboratories are equipped with the latest software and technology to stimulate and support research activity and to enhance the quality of instruction and educational experiences.

Exercise physiology laboratories house advanced equipment including Biopac Systems, Biodex Multi-joint Systems, Marquette Stress Testing Equipment, MedX Strength Training Equipment, and V-1 geometrical analysis software.

LSU COLLEGE OF
EDUCATION

CENTENNIAL CELEBRATION

1908-2008

1930s... Now

In 1936, LSU granted the first Ph.D. in teacher education to Martin Luther Riley.

Since that time, the College of Education has awarded hundreds of doctoral degrees.

Today the Department of Educational Theory, Policy, and Practice (ETPP) offers

doctoral degrees in curriculum and instruction and in educational

leadership, research, and counseling. Doctoral students distinguish themselves through research presentations at various national and international conferences and joint publications with faculty.

In 1939, the newly named School of Education was formed with the addition of the School of Health & Physical Education.

Today ETPP and Kinesiology collaborate on a variety of projects, including Delta Express and LE PAS, after-school programs that helps residents in hurricane relief communities to excel in school and stay physically fit.

CENTENNIAL CELEBRATION

1908-2008

1940s... Now

In 1941, the School of Education was renamed the College of Education and became one of 13 divisions of the university.

Today the college is one of 17 colleges and schools at LSU. The College of Education strives to be an engaged unit by participating in the collaborative and connected work that defines a flagship university and a 21st century college of education.

This work includes college programs and initiatives such as the LSU Coastal Roots Program, the Cadaver Laboratory, GEAR UP, and the French and Spanish Education Projects. These and other programs provide college faculty and students multiple opportunities to collaborate with the AgCenter; the School of Plant, Environmental, and Soil Sciences; and the School of Veterinary Medicine. Similarly, collaborations with area school systems and community outreach organizations include the Louisiana Sea Grant College Program, Big Buddy, the Baton Rouge Area Foundation, and many more.

LSU COLLEGE OF
EDUCATION

CENTENNIAL CELEBRATION

1908-2008

1950s... Now

In 1952, the LSU College of Education awarded the first Ph.D. in Health & Physical Education to Walter Lingle Russell.

Today the Department of Kinesiology has expanded to include doctoral programs with concentrations in exercise physiology (basic and clinical exercise physiology emphases), motor behavior (motor control, motor learning, and biomechanics emphases), and pedagogy.

The department continues to offer programs in the learning and teaching of physical activity. The graduate health and physical education program is coordinated by the Division of Pedagogical and Psychological Studies. Additional graduate-level concentrations include exercise physiology, motor behavior, and pedagogy.

CENTENNIAL CELEBRATION

1908-2008

1960s... Now

In 1961, Pearl M. Andrews was the first African American awarded a master's degree from the College of Education.

Today the college actively recruits students and faculty from diverse backgrounds.

Diversity issues are examined in the college's curricula.

Experiences in diverse school, corporate, and medical settings characterize the college's programs.

Curricula emphases include issues of culture, diversity, and social justice, encouraging democratic dialogue.

Graduate students are also involved in a variety of community efforts to address educational and health-related needs of at-risk children and their families, as well as those of the elderly.

A Century of Growth

CENTENNIAL CELEBRATION

1908-2008

1980s... Now

In 1983, students, faculty, and staff reoccupied Peabody Hall after two years of repair from a fire that ravaged the building in 1981.

Following the rebuilding and reoccupation of Peabody Hall, the college expanded to include the Office of Research in 1984 and the restructured Office of Student Teaching, renamed the Office of Clinical Experiences in 1988.

The Office of Research eventually became the Office of Sponsored Programs, which now facilitates all administrative aspects of the pre- and post-award processes. Most recently the college submitted \$7.9 million in proposals through the Office of Sponsored Programs, with \$3.9 million awarded.

The Office of Clinical Experiences, now called the Office of Field Experiences, coordinates field experiences and clinical practice for P-12 teaching candidates, including those in collaborative concentrations in the Colleges of Agriculture, Arts & Sciences, and Basic Sciences. These experiences are supported by partnerships with more than 60 different schools in 11 area school systems.

CENTENNIAL CELEBRATION

1908-2008

1990s... Now

In 1990, the School of Health, Physical Education, Recreation, and Dance was renamed the Department of Kinesiology.

This change in name more accurately describes the variety of programs the department now offers. Much more than solely a curriculum to prepare teachers of health and physical education, kinesiology curricula provide all students with a broad education in the art and science of human movement. Concentrations include athletic training, fitness studies, health science, human movement science, and sport studies.

Graduates in kinesiology are prepared to pursue many different professions and professional studies. These include areas such as athletic training, corporate wellness, community and hospital fitness, physical therapy, occupational therapy, dentistry, physician assistant, and general medicine.

A Century of Growth

LSU COLLEGE OF
EDUCATION

CENTENNIAL CELEBRATION

1908-2008

2000s

In May 2006, the Louisiana Board of Regents approved the merger of the Department of Curriculum & Instruction with the Department of Educational Leadership, Research, and Counseling. The newly formed Department of Educational Theory, Policy, and Practice (ETPP) joined the Department of Kinesiology and the University

Laboratory School to provide a foundation for advancing the college's flagship agenda.

Today ETPP's new structure facilitates flexibility in scheduling, integrated program articulation and delivery, collaborations among faculty crossing different program areas, and interdisciplinary teaching and research. Realignment of the college's departments and related divisions has better positioned the college to prepare leaders and influence policy in education, health, and wellness.
