

Michael Daley MP

11 February ·

Under the NSW Liberals mega-developers can, like Meriton at Little Bay, bypass council and have their massive high-rise proposals approved even if the local council has said no.

This Liberal Government policy is wrong and needs to change.

Thank you to the 10,000 locals and Save Little Bay who agreed with me and added their weight behind this important community issue securing a debate on the floor of the Parliament of NSW and the ear of the minister.

Let's hope they listened.

Triguboff has released plans to build 2more 17 storey towers on the site! 😡 No infrastructure for the original plan let alone this new disgrace. Don't know why anyone bothers with planning... and obviously you can do as you like 😡

Save Little Bay

Sue Cassell true. Unfortunately the battle for Pagewood was lost when Bayside Council did not stand up to Meriton's rezoning request for the site. Triguboff's DA to get those high-rises approved will now be a formality. We need to stop them in Little Bay BEFORE this absurd rezoning application gets the planning panel's tick of approval

Thx Michael, our whole area is turning into a high rise nightmare. Look at Meriton next to Eastgardens. Slum in the making. No parkland. I hope your plea helps change the law.

You're dreaming if you think the liberals even understand the meaning of integrity. Pork barrelling McGuire brown paper bags of cash etc should not be forgotten

Thank you Michael Daley MP.
This happened next door.

A single dwelling turned into what was originally supposed to be 4 apartments and is now 6.
3 double story towers overlooking our entire property. No privacy on the south side of our house where our bathroom windows are and some bedrooms are. No privacy at all in our backyard.

After council knocking it back. The developer went straight over the councils decision and to this govt. for approval.

Enough Is Enough

We have got to plan better. Even without climate change the amount of concrete being poured in Sydney will absorb heat and make the suburbs even hotter. In our area it's a bush fire risk with restricted road access. Waiting for residents to die in a fire is just too late.

Gail Zancanaro

George Williamson There is no such thing as climate change it is global warming .

Like · Reply · 8 w

George Williamson

Gail Zancanaro Global warming was to appease the critics with the reply "the climate is always changing". Made the assumption that Labor supporters here did not need the correct term. It was climate change when I took up the issue in 1974.

Local Councils should have the ruling power on developments & not the State Government

Like · Reply · 8 w

Kerry Smith

What's the use of having councils then if they cannot decide what happens in their area? Mega construction companies have, for far too long, been the destroyer of areas that should be preserved.

Great speech Michael Daley. Thanks for setting out the background to the Liberal orchestrated disaster approaching Little Bay in the form of Meriton. #savelittlebay

But concrete and high rise extreme density housing is the ideal environment for society of minions
It's not like those decisions would impact on them

Perhaps these developers should be looking to repurposing office buildings which will never go back to being fully utilised. Use what we have. Don't build suburban slums with sub standard materials which will never stand the test of time as Meriton Suites do.#nomerit

The Liberals have got to do something to earn their Kick-backs{Brown Paper bag Money} and Big Business Donations.

Good to see an Opposition person opposing. There seems to be an absence of Labor opposition in NSW despite the dodgy things this govt has done. For instance pork belly and comments by the premier and her deputy that it is no big deal and that is how things are done. According to the deputy we have elections so votes can be bought

Just like the nsw government can change zoning laws around national parks at farmers expense. Land grab for carbon credits so as to keep developing the city Making money for mates at the cost of the farmers and bush

HEva Stevens

Time to move forward. I rather live in a safe and secure place like Meriton with the green community. If you compare the rent from private owners to Meriton's rent you would like to move into the brand new units!

Save Little Bay

HEva Stevens Isn't it funny how Meriton's fans never seem to have any friends and always act like the trolls they really are?

Ryan Pidduck

HEva Stevens wait til the quality you see is bad. Also there is no where to park now and the community is already to large. If you want to be green go live off the grid. If you read and research on city's of the future, units are not the solution.
