

## Asphalt-A-Way

### Equipment Cleaner

#### Background

Our advanced chemistries and integrated systems are designed to tackle costly; complex challenges, improve productivity, reduce operation risks, and ensure responsible waste management. Our vision is to become a global leader in the application of sustainable technologies that enhance productivity and enable the decontamination of waste-driven by innovation, a spirit of challenge, operational efficiency, and an unwavering commitment to environmental preservation. We are working to deliver environmentally responsible and socially conscious technological solutions that reduce the impacts of industrial activities. Through innovative technology development and the strength of our people, we empower industries to operate more sustainably, efficiently, and responsibly.

Before Cleaning with Asphalt-A-Way
