### **Save a Life:** \$200

We work with our rescue partners to pair you with a specific dog or cat that would be saved by your donation. We provide the animal's full journey in pictures and story - from their life in the high-kill shelter, to their rescue/foster down south, their ride to New England on the transport, and their adoption by their forever family. Couples in the New England area may have the opportunity to go meet the animal if they would like once they arrive here.
