

Fourth of July Red White & Blues

Ingredients

- 1 cup plain yogurt**
- 10 strawberries, diced**
- 20 blueberries**

Instructions

- 1) In your dog treat mold or ice cube tray scatter in your strawberries and blueberries.**
- 2) Spoon the yogurt on top (if you choose a thick yogurt feel free to water it down a little). Fill evenly and smooth the top.**
- 3) Tap on the counter to ensure there are no air bubbles and the mixture is evenly distributed.**
- 4) Freeze for a minimum of 5 hours or overnight.**
- 5) To remove tap on the counter to loosen then turn out. If you have any trouble, quickly run the mold under warm water to help the treats release then turn out.**
- 5) Store in the freezer for up to 3 months.**

We suggest dropping the treat into your dogs bowl as they do thaw very quickly. It is easiest for your pup to lick at the yogurt to get to the fruit.
