

## The Story

A man named Al and his three brothers discovered "The Flowage" after WWII and made it their family vacation spot, as they all were avid fishermen. After much trial and error, they discovered that the simple June Bug Spinner was just about the only lure that could entice the perpetually elusive walleye. It was economical and effective, and still is to this day.

We are proud to bring this historical lure back to the marketplace. Our goal is to produce a reasonably priced, yet quality lure: Angler Al's June Bug Spinner in finishes of gold and nickel plated, the classic red and white, as well as many color combinations never found before.

Angler Al's June Bug Spinner catches everything from walleye, pike, bass, panfish and musky to a variety of saltwater species. Presentation can range from a slow troll to a quick cast and retrieve. The beauty of the june bug is that the blade will always rotate, regardless of retrieval speed. It is attached to the stainless steel shaft in two places: at the top and also at the center with a swingarm. The coil spring fastener also allows fishermen to quickly change hooks and baits to adjust to changing weather or fishing patterns.

We believe fishing is a sport of relaxation, tradition and family. It is our vision to keep these simple ideas alive with the pride of tackle hand crafted in the USA.

## The Lures

Approximate length of our flagship size 5 blade lure is 3.5". The shaft is .03" stainless steel for durability and strength. June bug blades and bright beads in a variety of colors are added. The lure is finished with a stainless steel coil spring fastener. **Size 5 blades** are 1.58" in length and 0.85" in width. **Size 3 blades** are 1.14" in length and 0.6" in width. **Size 1 blades** are 0.66" in length and 0.35" in width.

## The Colors!

Size 5 and 3 blades are available in a variety of plated finishes and color combinations. Size 1 blades available in gold or nickel plated.

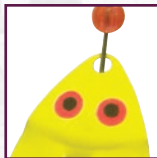

*Looking for something fish will really notice?*

HOT colors: Chartreuse, Fluorescent Pink, Fluorescent Orange & Fluorescent Yellow

## The Eyes Have It!

Holographic or fluorescent eyes affixed to the upper portion of the blade are an option for extra attraction. Simply look for the "E" at the end of the item number when ordering.

## Gifts & Accessories

### Box O'Lures – Small

(5) Lures enclosed in a **FREE Mini Tackle Box**. A perfect gift for any fisherman! Around the holidays, we like to call these the "Fisherman's Stocking Stuffer".

- GF001 - size 5 blade  
24k gold plated finish lures
- GF002 - size 5 blade  
nickel plated finish lures
- GF003 - size 3 blade  
24k gold plated finish lures
- GF004 - size 3 blade  
nickel plated finish lures

### Box O'Lures – Large

(10) Lures enclosed in a **FREE Tackle Box**.

- GF005 - size 5 blade  
24k gold plated  
finish lures
