Expiration and Abandonment

This permit becomes null and void if work or construction authorized is not commenced within 180 days of issuance, or if construction or work is suspended or abandoned for a period of 180 days at any time after work commences unless written approval for an extension is granted by the City.

Plan Alterations

No changes to the submitted plans or additional work are permitted without prior written approval from the City.

Electrical, Plumbing, and Mechanical Permits

Important Notice: Separate permits are **required** for electrical, plumbing, and mechanical work.

Appeals

Any and all persons may appeal the actions of the building inspector to the administration committee, such appeal to be in writing and brought before the administration committee within ten (10) days of the inspector's actions. (1977 Code § 15.12.090; amd. Ord. 2014-692, 2-10-2014)

For additional information, see Section 9-2-9 and Chapter 11-11 of the Saint Maries City Code available at the following url: <https://codelibrary.amlegal.com/codes/saintmariesid/>

Owner/Applicant Agreement

I hereby certify that I have read and examined the application and confirm that all statements, drawings, and depictions are true and accurate. All provisions of local, state, and federal laws governing this work will be complied with, whether specified herein or not. The granting of this permit does not give authorization to violate or cancel other local, state, or federal laws regulating construction or performance of construction. I further certify that the construction will conform to the dimensions and uses shown.

I hereby grant permission to the City and its representatives to enter the subject property to conduct inspections related to this application.

Site Plan Guidelines

The City of St. Maries requires that the following information be shown on your site plan.

If you have any questions regarding any of the requirements, please discuss them with a Planner. An incomplete or revised site plan may result in additional fees.

YOUR SITE PLAN MUST INCLUDE:

1. LEGIBLE DESCRIPTIONS.

2. The direction "North."
3. Scale: 1 Square= an even number of feet (e.g. 2 ft, 10ft, 60ft), depending upon the size of your property.
4. Be drawn on, at minimum, an 8 ½ X 11 sheet of paper.
5. Show the dimensions and boundaries of your ENTIRE parcel.
6. Include the location, dimensions, use of rights-of-way and easements, as well as any other structures on your parcel.
7. Show the distance BETWEEN existing and proposed structures and all property lines, rights-of-way, easements and other structures.
8. Include the location of all utilities, labeled "existing" or "proposed", including septic tank and drain field, water, power, gas and telephone/cable.
9. Include the locations and dimensions of all proposed and existing roads, driveways, parking areas, patios, decks, walkways and other impervious areas.
10. Show streams, culverts, drainage ways and any other distinguishing land features such as slopes.
11. Show the extent of the area which will be disturbed by the construction activity.

PLEASE NOTE:

If this is the first structure on a parcel, it is very important that you show the exact driveway location using measurements to each property corner.

No site plan is required for reroofing.

We do have an example site plan available for reference, if needed.
