# What is The United Foods?

The United Foods, or U.F., is an organization founded to help unify the Foods of Fridgia, keep peace, look after the planet, and protect Food's rights. This is mostly enforced through the Declaration of Authority 318-06-06<sup>i</sup>, which ensured that the U.F. has legally binding power in the majority of nations.

## Where is the U.F. Based?

Although the U.F. operates around the world, the main U.F.H.Q. is located in Blueberry City BL, with other U.F.H.Q.s located in Parmésion (CL), Citrus City (CK), Knuts (NE), Etalope (PP), and, recently, in New Gourd City (AU).

## Who makes up the U.F.?

The U.F. is made up of 40 representatives from 23 nations. U.F. Representatives are elected through a simple process<sup>ii</sup> every 2 years. The nations of the U.F. include 4 founding nations and 19 member nations<sup>iii</sup>.

## When was the U.F. founded?

The U.F. was founded 318, Hay 29<sup>th</sup>, with new members joining and leaving over the following decades<sup>iv</sup>.

## Why was the U.F. created?

In order to de-escalate tensions during the Freezer War, the Citrus Kingdom and Democracy of Berryland decided to gather the leaders of the involved nations, including the Nutch Empire, Cheeseograpean Empire<sup>†</sup>, and Pea Place. The Republic of Watermelons was unable to attend, and the Space Organization of the Relish Peninsula refused to join until 370-07-14.

# History of the U.F.

318: United Foods is Founded 05-29 by CK, BL, CG<sup>†</sup>, NE, and PP. RW joins 06-06.

326: DefStat<sup>i</sup> reaches Hot-2 on 10-26.

368: GL, CL join 12-07.

369: NC joins, CL leaves 04-14. PC joins 05-01. CM joins 05-06. DefStat reaches Cold-1 on 06-13. AU and PS joins 08-12.

370: AP, KB, PK, RP, LB, LI, and CL join 07-14.

371: KO joins 04-01

i. See page 6.

# Representatives & Membership

## Election

Every Food has 2 members. Members are elected biannually. The process consists of 3 stages: First, each county<sup>i</sup> elects a candidate to run. Next, each province<sup>ii</sup> elects a candidate from its counties. Finally, the whole nation votes, and the top 2 candidates are named U.F. Representatives, and given the title UF. They are inaugurated in a regular meeting on Hay 29<sup>th</sup>.

## Role in meetings

During U.F. meetings, a representative can propose an issue to discuss, participate in discussions, and vote on an issue for either “I”, “Nay”, or “Indecisive/Abstain”. Representatives can be removed from office at any time, by the U.F. or their home nation. Representatives relay information from meetings directly to their nation’s head of government, and vice versa.

## UF Judge

Every 2 inauguration meetings, the representatives elect an UF Judge. The UF Judge is a representative who coordinates and guides the meetings, and can also be removed from office by a >50% majority vote.

## Nation Classification

For the purposes of membership, nations are classified into 5 groups: Founder, Member, Applicant, Observer, and Disputed. Founder nations are the nations that founded the U.F. This is permanent; no more countries can become founder, and no countries can cease being a founder<sup>iii</sup>. Member nations have U.F. representatives, and are subject to U.F. International Laws. Applicant nations are nations which are trying to achieve member status. Observer nations are nations that are not a part of the U.F., but are recognized by all founder nations. Disputed nations are nations which are recognized by some nations, but not enough to be classed as Observer Nations.

## Founder Nations

There are four founder nations: The Democracy of Berryland , Citrus Kingdom, Nutch Empire, and Pea Place. These nations decide which countries are fully recognized, and need a 100% vote between representatives to make a country official.

## Member Nations

These make up the majority of the U.F., and must donate 1% of their GDP to the U.F. as funding. Member nations require a vote from their population to leave<sup>iv</sup>. There are currently 13 founder and member nations.

## Applicant Nations

Applicant nations are fully recognized, non-member nations that wish to be a part of the U.F. To apply for membership, a nation must meet the following requirements: To protect their citizen’s Food Rights, to not wage excessive war, and to follow U.F. International Law. Nations can be denied membership for reasons other than these as well. Currently, the inly applicant nation is the United Provinces of Lebleu.

## Observer Nations

Observer Nations are fully recognized nations that, for whatever reason, do not wish to join the U.F. There are currently 4 Observer Nations: the Constitutional Federalist Unitary Democratic People’s Republic of the Crop Country, the Condimentian Department of West Fridgia, the MBW, and the Mayoneez United Tribes. Observer nations cannot vote on U.F. International Law, but are not legally required<sup>v</sup> to follow them either.

## Disputed Nations

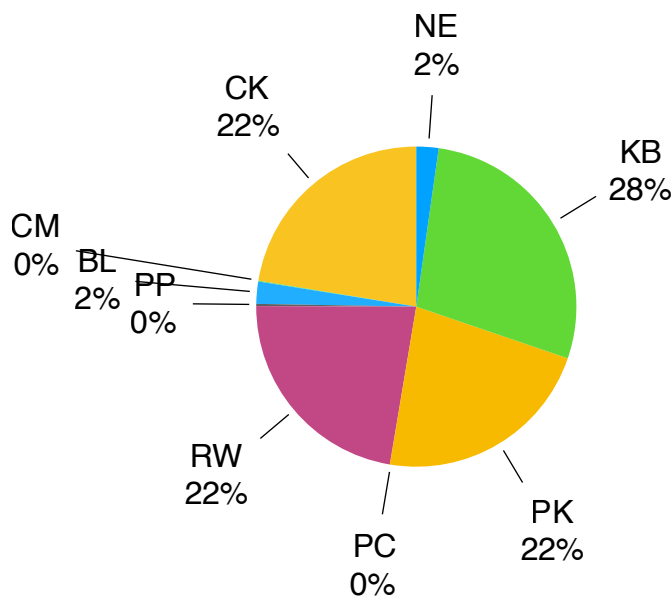

Disputed Nations, such as the Olivian Republic, are non-member nations that are recognized by at least one Founder nation, but not all. Officially, they are not independent nations, however some nations may choose to recognize them.

i,ii. Or whatever terms are used for that nation. iii. With the exception of scenarios involving the nation ceasing to exist, such as the late Cheeseograpean Empire. iv. As of 369-04-10. v. In certain situations, the U.F. might decide to step in, usually diplomatically but violently if necessary.

# U.F. Peacekeeping Forces [UPF]

In case of conflict, the U.F. has a Peacekeeping Reserve Force, made up of volunteers from member's armed forces. The U.F. only deploys it military at DefStat 1. DefStat, or Defense Status, is a scale of based off of RW's DEFCON system that represents how close Fridgia is to Global (Thermonuclear) War.

Level	Definition (Hot)	Definition (Cold)	Example
DefStat 1	Nuclear War Imminent or Under way	Global War breakout	Great Fridgian War (Cold)
DefStat 2	Next Step to Nuclear War	Global War Imminent	Melão Missile Crisis (Hot)
DefStat 3	Increased Tension Between Nuclear-Armed Nations	Increased Tension Between Large Militaries	Cropean War (Hot)
DefStat 4	Mild Tension Between Nuclear-Armed Nations	Mild Tension Between Large Militaries	Mango-Banana War (Cold)
DefStat 5	No Threat of Nuclear War	No Threat of Global War	Cheeseograpean Civil War (Hot)

The UPF has 44,650 active personnel, as well as 750,000 reserve personnel, 98% of which are from KB. Due to their large population, KB also provide the largest amount of active personnel, followed closely by PK, RW, and CK. The UPF has only ever deployed during the Great Fridgian War: The army in the Battle of Parmésón, the marine corps in the Battle of Port Salut, the air force in the Third Battle of Ricia, and the navy in the Battle of Autumn Bay.

# **Declarations, Acts, Proclamations, Treaties, and Agreements**

# Declaration of Authority

Issued 318-06-06

By signing this document, you agree that the United Foods shall have legal power within your nation's territory, and that the U.F. may intervene in local affairs if deemed necessary by the United Foods. This includes but is not limited to: Embargoes, democratic reforms, military limitations & disarmament,

The Declaration of Authority allows the U.F. to operate with legally binding power in all nations except the Constitutional Federalist Unitary Democratic People's Republic of the Crop Country [CFUDPR-CC] and the MBW. This allows the U.F. to help improve Fridgia much faster and more effectively, and actively stop war, pollution, and Food Rights<sup>i</sup> violations. The UDA was suggested by the Republic Of Watermelons in the second ever official United Foods meeting in 318 on Prune 6<sup>th</sup>.

Many modern governments, such as the corporate regime of the Space Organization of the Relish Peninsula [SORP] and the totalitarian dictatorship of the Democratic Republic of Cheeseland<sup>†</sup>, protest that signatures made by leaders 50 years ago affected their country so much, and want the UDA to expire every so often so that the new leaders can decide if they want to keep it. However, such amendments have not been passed by the representatives.

Most nations signed the UDA in 318 on Prune 6<sup>th</sup>, shortly after the U.F. was founded, however more countries signed over time as more countries gained independence.

# Anti-Dictatorship Agreed Mass Sanctioning

Issued 320-II-29

In order to ensure the rights of Foods, all who sign this document agree that the following nations must be sanctioned and embargoed for their totalitarian crimes against their citizens:

Cheeseograpean Empire†

CFUDPR-CC

MBW

Mayoneez United Tribes

Space Organization of the Relish Peninsula

Due to their refusal to provide their citizens with power in the government, all trade, alliances, and support to these nations must be revoked.

The ADAMS aims to turn the oppressive governments of the planet into free and fair democracies, to allow the entire Fridgian population to be as happy and free as possible. This agreement prevents trade with the target countries, in hopes to force them to be more democratic.

# Nuclear Arms Limitation Treaty

Issued 326-10-31

By signing this treaty, all nations agree to cease construction of and testing nuclear and thermonuclear warheads, and countries already in possession of such weapons must try to limit their supply. Nuclear-Armed nations includes:

Cheeseograpean Empire†  
Citrus Kingdom  
Ketchopian Bi-State Area  
Kingdom of Bagelton  
Nutch Empire  
Pea Place  
Royal Commonwealth of Pankaco  
Republic of Watermelons  
SORP

Weapons of Mass Destruction can refer to any nuclear warhead: Uranium, Plutonium, or Hydrogen.

Signature(s) added 326-10-31;

*King Kongzilla III, Prime Minister Bill, King Alex XVII, President Somerandom Shugger, King Do-Nut, Mayor Sir Cumference, His Nuttiness Emperor Butter, King Bill, King Waffleson II, President Epuolatnac, CEO Major Garl.*

The NALT is designed to help prevent the use of nuclear weapons and save millions of lives from nuclear war. It also outlaws nuclear testing, which will help reduce radiation in certain areas and overall benefit the entire planet. This treaty was created after the Melão Missile Crisis, in which the chance of nuclear war was at its highest: The U.F. had reached DefStat Hot 2.

# Cheeseograpean Disarmament Treaty

Issued 368-12-25

By signing this Disarmament Treaty, participant nations agree to end all hostilities between the nation of Grapeland and the Democratic Republic of Cheeseland, and end the Cheeseograpean civil war. Grapeland will have assured sovereignty, and the Democratic Republic of Cheeseland will have King Kongzilla III removed from office as head of government and state, and UF Chedderal removed from office as U.F. Representative and Major General. Both Cheeseland and Grapeland will be prohibited from having armed forces to ensure lasting peace.

# Treaty of Polaris

Issued 37I-01-01

By signing this treaty, all belligerents of the Great Fridgian War will end all hostilities and make peace with each other. The belligerents will also agree to the following border adjustments:

- The Cheeseni Second Republic will withdraw all troops from & return the occupied area in southern Macadamxia
- Wulxia will be ceded to the Nutch Empire, who will withdraw all troops from the rest of the Mayoneez United Tribes
- North Grapeland will be repossessed by the Citrus Kingdom
- South-Western Opia will be ceded to Pankaco
- North-West and South-West Cheeseland will be ceded to the Cheeseni Second Republic
- The United Provinces of Lebleu will have guaranteed sovereignty
- All of Fridgia's moons will be demilitarised.

This treaty marked the official end to the Great Fridgian War, a conflict which lasted for 1 year, 6 months, 1 week, and 5 days.

# Carbon Neutral Agreement

Issued 330-03-30

All who sign this treaty agree to lower their carbon dioxide emissions as much as possible in the name of the planet and environment. This will be unforced in many ways, including but not limited to:

A total ban of ChloroFluoroCarbons,

A ban on international trade of coal,

Heavy tariffs and taxes on oil and natural gas,

Increased funding towards renewable and nuclear power,

It is now required by international law for all gas stations to have at least 3 electric car charging points.

The goal of this agreement is to have each nation emit a net of 0 carbon emissions, to preserve the environment of the planet.

Signature(s) added 330-03-30:

This agreement was made after scientists all around Fridgia started to realize just how much of an effect the emissions of carbon dioxide had on the environment. Many scientists in Berryland had already discovered that carbon dioxide had negative effects, but it was only in 330 when the international community decided to stop it before it was too late. This agreement slowed Food-induced climate change by a considerable amount, however there was still an extraordinarily large amount of CO<sub>2</sub> being emitted into the atmosphere, mostly from power plants and vehicles.

## Carbon Neutral Agreement, Act II

Issued 372-05-29

This agreement is an expansion on the previous agreement. It adds the following terms and conditions:

A total ban of coal

Heavy tariffs on international trade of oil and natural gas.

Reduction of forest cover must be no more than 2% lost per year

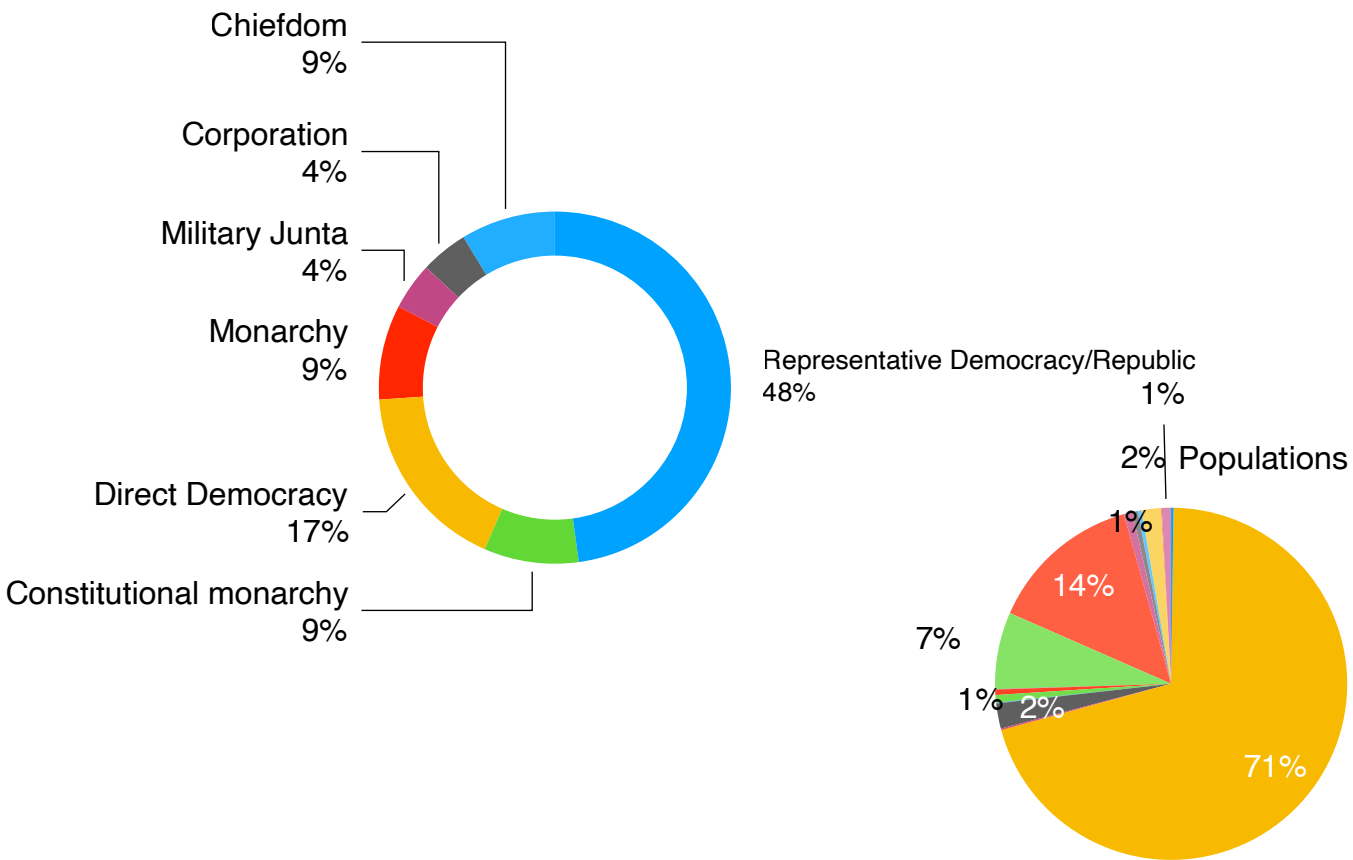

After an area of ocean the size of Bagelton caught fire from the events of the Battle Of The Olive Oil Ocean during the Cheeseograpean Civil War, it was decided that even stricter carbon emission regulation and minimization would be needed, but it was not until after the Great Fridgian War, and the CO<sub>2</sub>-heavy super weapons such as the Moon Rake, as well as the disaster in Mayoneez, that action was taken.

# Territory Disputes & Independence Movements

## **Cheeseni-Cherry Border**

A square of land in between the Cheeseni Second Republic and New Cherryland on the Grapes border is claimed by both CL and NC.

## **Olivian Republic**

An area in south-east Pastia has declared independence. A large amount of Pastia's tourism economy is in that area, so they do not recognize its independence.

## **Tropicant Republic**

The island of Citrino, one of four small islands off the coast of the MBW, is occupied by a democratic movement called the Tropicant Republic.

## **Lava Kraken Island**

The swirl-shaped island between Bagelton and Nutland that was once home to the Lava Kraken is claimed by 5 separate nations, including a nation known as the Coco Kingdom which is not fully recognized.

## **Port Salut**

The Cheeseni province of Port Salut has declared independence, and is run by the Democratic Republic of Cheeseland's<sup>†</sup> remaining naval officers. It is recognized by only 3 nations (SORP®, CFUDPR-CC, and MBW), all of which are observer nations.
