

OPEN HOPPER PUMP

If you have a requirement of handling heavy, or extremely viscous fluids, then the ER open hopper pumps are an ideal match. As their name suggests, these pumps feature an open hopper and auger feeder.

- **Open suction hopper design**
- **For highly viscous sludge/slurry**
- **Can pump up to 60% solids**

PERFORMANCE

- Capacity up to **1,400 gpm**
- Differential pressure up to **360 psi**

- 1 stage: **90 psi**
- 2 stages: **180 psi**
- 4 stages: **360 psi**
- Operating temperature up to **356° F**
- Viscosity up to **1,000,000 cS**

APPLICATIONS

- Wastewater
- Paper
- Paint
- Crude Oil
- Food/Beverage Waste
- Asphalt
- Chemical Injection
- Slurry
- Drilling Fluids
- Ballast Water
- Calcium Carbonate
- Tall Oil
