

2019 CSA LONG ENTRY FARM

What is a CSA?

CSA stands for *Community Supported Agriculture*. A CSA is a practice that enables a local community to support their local farmer while receiving the freshest produce in return for their support. Supporters purchase a 'share' of the harvest ahead of the growing season. Why???

Advantages for CSA Share Holders:

- **SUPPORT** your local Farmer! Rhode Island agriculture needs your support!
- Eat **FRESH!** All of the food in your basket will be less than 24-hours from the field!
- Eat **SEASONALLY**. LEF will provide you with the season's freshest variety.
- Eat **NEW** vegetables and learn **NEW** recipes. Long Entry Farm wishes to provide you with the staples of summer - and perhaps a few new ones.
- **KNOW** what farm - and what field - your food is coming from
- **KNOW** the farm family that you are supporting!

Advantages for Farmers:

- We get to know the families that our fields & labor is supporting
- We receive payment before the season, which helps with the season's start-up expenses (seeds, soil, fertilizer, flat trays, etc...)

Shared Risk:

- Inherent in any CSA practice is the notion of Shared Risk. As a supporter - you are asked to accept whatever the farm produces (or not, as the plague may be). As the farmer - we are committed to filling your baskets before our produce is sold elsewhere.

Share Size & Pick-Up dates:

- There is one share size option for the 2018 season. It comfortably feeds a family.
- Our CSA season is 15-weeks - tentatively starting the week of June 21st, ending the week of October 1st, give-or-take a week or two on each end.

ADD-ON Shares for meat and/or flowers.

- **MEAT:** Share includes 2-pounds of Timberdoodle meat for 5 weeks w/in the 15-week season.
- **FLOWERS:** Share includes a bouquet of Lawton flowers for 5 weeks w/in the 15-week season.
