SECTION 101 TITLE

This Zoning Resolution shall be known as the Spencer Township Zoning Resolution.

SECTION 102 AUTHORIZATION

The authority for establishing "The Spencer Township Zoning Resolution" is derived from Chapter 519.00 inclusive of the Ohio Revised Code.

SECTION 103 PURPOSE

In order to promote and protect the health, safety, and general welfare of the residents of the unincorporated area of Spencer Township, Medina County, Ohio; to preserve the rural character of the Township; to control populations density; to protect and preserve property values; and to insure orderly growth and development in said Township, the Board of Township Trustees has found it necessary and advisable to adopt a plan of zoning which will regulate the location, height, bulk, number of stories, and size of buildings and other structures; percentages of lot areas which may be occupied; building setback lines; size of yards and other open spaces; use of buildings and other structures; uses of the land for trade, industry, residence, recreation, or other purposes, and for such purposes to divide the unincorporated area of Spencer Township into districts and to provide for the administration and enforcement of such regulations.

SECTION 104 VALIDITY AND SEPARABILITY

It is hereby declared to be the legislative intent that, if any provision(s) of the Zoning Resolution, or the application thereof to any zoning lot, building, or other structure, or tract of land, are declared by a court of competent jurisdiction to be invalid or ineffective in whole or in part, or to be inapplicable to any person or situation, the effectiveness of such

decision shall be limited to the provision or provisions which are expressly stated in the decision to be invalid or ineffective, or to the zoning lot, building, or other structure, or tract of land immediately involved in the controversy. All other provisions of this Zoning Resolution shall continue to be separate and fully effective, and the application of any such provision to other persons or situations shall not be affected.

SECTION 105 REPEALER

All existing Zoning Resolutions of Spencer Township, Medina County, Ohio, inconsistent herewith, are hereby repealed.

SECTION 106 EFFECTIVE DATE

This Zoning Resolution shall become effective from and after the date of its approval and adoption, as provided by law.

SECTION 107 INTERPRETATION

In interpreting and applying the provisions of this Zoning Resolution, they shall be held to be the minimum requirements for the promotion of public health, safety, morals, comfort and general welfare. Whenever the requirements of this Zoning Resolution are at variance with the requirements of any lawfully adopted rules, regulations, ordinances or resolutions, the most restrictive, or that imposing the higher standards shall govern.

SECTION 108 ESTABLISHMENT OF DISTRICTS

For the purposes set forth in this Zoning Resolution, the land area within the unincorporated area of Spencer Township is hereby divided into the following districts:

- R-1 Low Density Residential District
- C-R Limited Commercial and Residential District

Only those uses specifically identified as being either a permitted principal use, a conditionally permitted use, or an accessory use in a particular zoning district may be permitted in that zoning district. Any use not specifically listed as a permitted, conditional, or accessory use in a zoning district shall be considered a prohibited use in the zoning district.

SECTION 109 OFFICIAL ZONING MAP

The zoning districts and their boundary lines are indicated upon the map entitled, "Zoning Map - Spencer Township." Said map is made part of this Zoning Resolution. The said Official Zoning Map, once signed by two or more trustees and dated, together with all notations and references thereon are hereby declared a part of this Zoning Resolution. The original map shall be maintained in the administrative offices of Spencer Township, and

shall show thereon all amendments or changes made hereafter. The Zoning Inspector shall be responsible for adding amendments and changes adopted by the Township Trustees to the Official Zoning Map.

SECTION 110 INTERPRETATION OF DISTRICT BOUNDARIES

The following rules shall be used to determine the precise location of any zoning district boundary unless such boundary is specifically indicated on the Official Zoning Map:

- A. Where district boundary line is shown to approximately follow a lot line; such lot line shall be construed to be the boundary line.
- B. Where a district boundary line is shown as approximately parallel to the right-of-way line of a street or highway, the district boundary line shall be construed as being parallel thereto and at a distance therefrom as indicated on the Official Zoning map.
- C. Where the boundary of a district follows a stream, lake or other body of water, said boundary line shall be deemed to be at the high-water line.
- D. Where the boundary of a district follows a railroad line, such boundary shall be deemed to be located in the middle of the main tracks of the railroad line.
- E. Whenever any street, alley, or other public way is vacated, the zoning district adjoining each side of such street, alley, or public way shall automatically be extended to the center of such location, and all areas within that location shall thenceforth be subject to all regulations appropriate to the respective extended district.
- F. If no measurement is given, dimensions shall be determined by the use of the scale shown on the Official Zoning Map.

SECTION 501 PURPOSE

Rather than assign all uses to special individual and limited zoning districts, it is important to provide controllable and reasonable flexibility in requirements for certain kinds of uses that will allow practicable latitude for the investor, and, at the same time, maintain adequate provision for the security of the health, safety, convenience, and general welfare of the community's inhabitants. In order to accomplish such a dual objective, a provision is made in this Resolution for a more detailed consideration of each of certain specified activities relative to proposed conditions of location, design, size, operation, intensity of use, generation of traffic and traffic movement, and concentration of population, etc. Uses possessing these particular unique characteristics are designated through the issuance of a Conditional Zoning Certificate with such conditions and safeguards attached as may be deemed necessary for the protection of the public welfare. The Board of Zoning Appeals may authorize the issuance of such Conditional Zoning Certificates for any of the uses specified in this Resolution pursuant to the procedures set forth herein. The Board of Zoning Appeals is also authorized, upon application and hearing, to modify and amend previously granted Conditional Zoning Certificates.

SECTION 502 APPLICATION

- A. Submission
An application shall be submitted through the Zoning Inspector to the Board of Zoning Appeals on a form provided by the Zoning Inspector for such purpose.
- B. Data Required with Application
Each application for a Conditional Zoning Certificate shall include at a minimum, the following:
 - 1. A completed application form signed by an authorized representative of the applicant. If the applicant is not the owner of the property, the

- application shall be accompanied by a letter of authorization signed by the property owner.

 4. The names and addresses of the owners of property abutting and immediately across the street from the subject site as shown on the latest tax roll of the Medina County Auditor.
 5. Such fees and deposits as may be established by the Board of Trustees.

C. Review and Processing

The Zoning Inspector shall review each application for completeness, accuracy, and compliance with this Resolution. Within five (5) business days of the submission date, the Zoning Inspector shall determine whether the application is complete. If the application is determined to be insufficient, the Zoning Inspector shall notify the applicant of the nature of the deficiency. If the application is determined to be complete, the Zoning Inspector shall officially accept the application and forward the request to the Board of Zoning Appeals.

SECTION 503 NOTICE AND HEARING

Upon receipt of a complete application, the Board of Zoning Appeals shall schedule and hold a public hearing upon the application. The Board shall give notice of the public hearing by publishing one (1) notice of such hearing in a newspaper of general circulation in the Township at least ten (10) days prior to the date of the hearing. Such notice shall indicate the place, time, and subject of the hearing. Notice shall also be given to adjoining property owners and those immediately across the street by regular mail. Such notice or letter shall indicate the place, time, and subject of the hearing and shall be posted at least ten (10) days prior to the meeting date.

SECTION 504 BASIS OF DETERMINATION

The Board of Zoning Appeals shall consider each application for a Conditional Zoning Certificate based upon the general and specific standards set forth herein. No Conditional Zoning Certificate shall be approved unless the Board determines that such use will comply with said standards. When approving a Conditional Zoning Certificate, the Board of Zoning Appeals may impose such additional conditions and safeguards as it may deem necessary for the general welfare, the protection of individual property rights, and for ensuring that the intent and objectives of this Resolution will be observed. Upon approval by the Board, the Zoning Inspector shall issue a Conditional Zoning Certificate setting forth all of the terms and conditions of such approval.

SECTION 505 GENERAL STANDARDS FOR ALL CONDITIONALLY PERMITTED USES

NONCONFORMING USES, STRUCTURES, AND LOTS

- Section 1001 PURPOSE
- Section 1002 NONCONFORMING USES
- Section 1003 NONCONFORMING STRUCTURES
- Section 1004 NONCONFORMING LOTS

- Section 1005 COMPLETION OF APPROVED CONSTRUCTION
- Section 1006 NONCONFORMING SIGNS

SECTION 1001 PURPOSE

The purpose of this Article is to provide for the regulation of uses, structures, and lots lawfully established prior to the enactment of this Zoning Resolution and amendments hereto but which do not conform to the existing provisions of this Zoning Resolution. Such lawfully established uses, structures, and lots may be continued, despite their nonconforming conditions, subject to the provisions of this Zoning Resolution which provide for their completion and continued use, but also provide for reasonable regulation of their restoration, reconstruction, extension, and substitution. While it is the intent of this Zoning Resolution to permit such nonconforming conditions to continue until abandoned, removed, or abated, a nonconformity is deemed incompatible with currently permitted uses and requirements in the zoning district and should be discouraged, especially where such nonconformity constitutes a nuisance or hazard.

SECTION 1002 NONCONFORMING USES

- A. Continuance of Lawful Nonconforming Use.
The lawful use of any building or land existing at the time of this Zoning Resolution or amendments thereto, may be continued, although such use does not conform with the provisions of this Zoning Resolution, subject however to the provisions of this Chapter.
- B. Discontinuance or Abandonment.
Whenever a nonconforming use has been discontinued for a period of two (2) years or more, such discontinuance shall be considered conclusive evidence of an intention to legally abandon the nonconforming use. At the end of the two (2) year period of abandonment, the nonconforming use shall not be re-established, and any further use shall be in conformity with the provisions of this Zoning Resolution.
- C. Displacement.
No nonconforming use shall be extended to displace a conforming use.
- D. Enlargement of Use.
A nonconforming use may be altered or improved, provided that the use is not enlarged or expanded; however, extension of a nonconforming use within any portion of a building or structure already occupied by such

nonconforming use shall be permitted. The intensity or nature of a nonconforming use shall not be altered or modified in any manner, which creates or increases a nuisance or hazard affecting or potentially affecting surrounding properties.

SECTION 1003 NONCONFORMING STRUCTURES

A. Alterations or Enlargements.

A nonconforming structure may be enlarged or extended to extend such structure to a total area not to exceed twenty percent (20%) more than the original existing area of the structure, provided that the alteration or enlargement shall comply with the current regulations for the district in which it is located. A structure that is nonconforming solely with regard to encroachment into a required setback may be expanded or enlarged provided that any such expansion or enlargement does not increase the extent of such encroachment.

B. Restoration of Damaged Structure.

Nothing in this Zoning Resolution shall prevent the reconstruction, repairing, rebuilding, and continued use of any nonconforming building or structure damaged by fire, collapse, explosion or acts of God, subsequent to the date of this Zoning Resolution, provided that not more than seventy-five percent (75%) of the value of the building or structure was lost in such damage event and provided such replacement or repair does not extend the nonconformity, and further provided that such replacement or repair occurs within two (2) years of the date of damage. When more than seventy-five percent (75%) of the value of the structure is lost in such damage event, the structure and use shall not be reconstructed except in a manner conforming with this Zoning Resolution.

C. Repairs and Maintenance.

Repairs and maintenance work as required to keep a nonconforming structure in sound condition are permitted.

SECTION 1004 NONCONFORMING LOTS

When a nonconforming lot can be used in conformity with all applicable provisions of this Zoning Resolution, except that the area of the lot is nonconforming, then the lot may be used as if its area were conforming. When conforming use of a nonconforming lot cannot reasonably be established due to the setback requirements of the district in which it is located, the Board of Zoning Appeals may grant variances to setback requirements as necessary to establish a permitted use of the district, provided that there is no contiguous land in common ownership with the subject lot which could be used to reduce or eliminate the nonconformity and the variance meets all other variance standards of this Zoning Resolution.

SECTION 1005 COMPLETION OF APPROVED CONSTRUCTION

Nothing in this Zoning Resolution shall prohibit the completion or construction and use of a nonconforming structure for which a Zoning Certificate has been issued prior to the effective date of this Zoning Resolution or amendment thereto, provided that construction is commenced within ninety (90) days after adoption of this Zoning Resolution and provided that the entire structure and the establishment of the use shall have been completed within one (1) year after issuance of the Zoning Permit.

SECTION 1006 NONCONFORMING SIGNS

Signs which were legally existing prior to the effective date of this Resolution, but which do not conform with the provisions hereof, may be maintained as a matter of right provided that such signs comply with the current provisions of this Resolution regarding safety, maintenance, and repair. Normal maintenance such as painting, cleaning, or minor repairs shall be permitted on all such nonconforming signs. Relocation or replacement of a non-conforming sign or any alteration in the size or structure of such sign shall cause the sign to lose its status as legally nonconforming and said sign shall be immediately brought into compliance.

CONDITIONS AND

SAFEGUARDS

SECTION 1101 APPEALS

- A. Appeals to the Board of Zoning Appeals may be taken by any person aggrieved by any decision of the Zoning Inspector. Such an appeal shall be taken within twenty (20) days after the decision by filing with the Board of Zoning Appeals a notice of appeal specifying the grounds thereof. All appeals and applications made to the Board of Zoning Appeals shall be in writing and on forms provided by the Zoning Inspector and shall be accompanied by a fee as set by the Board of Township Trustees. The Zoning Inspector shall forthwith transmit to the Township Board of Zoning Appeals all the papers constituting the record upon which the action appealed from was taken. Every appeal or application shall refer to the specific provision of this Zoning Resolution that is the subject of the variance, appeal or determination, and shall set forth the interpretation that is claimed, the details of the variance that is applied for and the grounds on which it is claimed that the variance should be granted as the case may be.
- B. Before an applicant may appeal for a variance from the regulations of this Resolution, the applicant must first apply for a Zoning Certificate. After the Zoning Inspector has disapproved the application, the applicant may then file a request for a variance from the strict application of the Zoning Resolution as it applies to the applicant's situation.
- C. The Board shall decide each appeal within a reasonable time after it is submitted.
- D. No variance or appeal which is disapproved by the Board of Zoning Appeals shall be resubmitted for substantially the same request on the subject property for a minimum period of at least one (1) year from the effective date of the action by the Board of Zoning Appeals.

SECTION 1102 NOTICE AND HEARING

- A. Upon receipt of an application, and a determination that the application is complete, the Board of Zoning Appeals shall fix a reasonable time for the public hearing and shall give at least ten (10)

days notice in writing to the parties in interest. Such written notice of the hearing shall be mailed by the Board of Zoning Appeals, by first class mail, at least ten (10) days before the date of the public hearing to all owners of abutting properties and properties directly across the street from the subject site. Such notices shall be sent to the address of such owners appearing on the county auditor's current tax list and shall indicate the place, time, and subject of the hearing. The Board may notify such other parties as the Board determines may be affected by or have interest in the appeal. The Board shall also give notice of such public hearing by one (1) publication in one (1) or more newspapers of general circulation in the county at least ten (10) days before the date of such hearing.

- B. At the public hearing, any person may appear in person or by attorney and shall have the opportunity to give testimony under oath.

SECTION 1103 AREA VARIANCES

Where the appeal requests an area variance, that is, a variance involving provisions relating to yard dimensions, setback, height, or similar spatial or dimensional requirements, then the following standards shall be considered and weighed in determining whether the grant of a variance is warranted to afford relief of practical difficulties:

- A. Whether the property in question will yield a reasonable return and whether there can be any beneficial use of the property without the variance. Increased cost only shall not be the basis for a variance.
- B. Whether the variance is substantial.
- C. Whether the essential character of the neighborhood will be substantially altered and whether adjoining properties will suffer a detriment as a result of the variance.
- D. Whether the variance will adversely affect the delivery of governmental services.
- E. Whether the property owner purchased the property with knowledge of the zoning restriction.
- F. Whether the property owner's predicament can be obviated through some method other than a variance.
- G. Whether the spirit and intent of this Zoning Resolution will be observed and substantial justice done by granting the variance.
- H. Whether the property in question has unique or exceptional circumstances or conditions that do not generally apply to other properties in the vicinity and within the same district.
- I. Whether granting of the variance will be contrary to the general purpose, intent, and objective of the specific use district.
- J. Whether the variance requested arises from a condition or circumstance which is unique to the subject site and which is not generally shared by other properties in the same zoning district or general vicinity.

- K. Whether the practical difficulty is created by the Zoning Code and not by any action or actions of the property owner or the applicant.
- L. Whether the variance desired will adversely affect the public health, safety, or general welfare.
- M. Whether the variance requested is the minimum variance necessary to afford relief to the property owner.

SECTION 1104 USE VARIANCES

Where the appeal requests a use variance, that is, a variance for the approval of a use which is not permitted in the district, then the following standards shall be considered and weighed in determining whether the grant of a variance is warranted to afford relief of an unnecessary hardship:

- A. Whether uses permitted in the district may be reasonably established on the property and whether they are economically viable on the property in question without the variance. Increased cost alone shall not be the basis for a variance.
- B. Whether the variance is the minimum necessary to afford relief to the property owner.
- C. Whether the essential character of the neighborhood will be substantially altered or adjoining properties will suffer interference with their proper future development and rights as a result of the variance.
- D. Whether the property in question has unique or exceptional circumstances or conditions that do not generally apply to other properties in the vicinity and within the same district.
- E. Whether the hardship condition was created by actions of the applicant.
- F. Whether the spirit and intent of this Zoning Resolution will be observed and substantial justice done by granting the variance.
- G. Whether the use requested is similar in character to the permitted uses in the subject district.
- H. Whether the subject property is adequate to meet the needs and requirements of the proposed use.

SECTION 1105 ISSUANCE

A variance shall not be granted unless the Board of Zoning Appeals makes a determination that the criteria contained herein are satisfactorily addressed by the evidence presented by the applicant to establish that a practical difficulty or unnecessary hardship exists and that the granting of a variance will preserve the spirit and intent of this Zoning Resolution and that substantial justice will be done.

SECTION 1106 SUPPLEMENTARY CONDITIONS AND SAFEGUARDS

In granting any appeal or variance, the Board of Zoning Appeals may prescribe appropriate conditions and safeguards in conformity with this Zoning Resolution, which shall become stipulations of the variance or appeal. Violations of such conditions and safeguards, when made a part of the terms under which the appeal or variance is granted, shall be deemed a violation of this Zoning Resolution.
