The Haskell Youth Club and Future Cardinal Diamond Sports are excited to announce that we are combining organizations, effective immediately.

Over the years, both organizations have been our community's main sources of recreational baseball and softball opportunities.

While working together and through our discussions, the combination of both organizations will better serve the youth in our community and be more beneficial by providing the best quality youth baseball and softball opportunities.

This opportunity will allow our program to offer participants expanded facility options, increased player participation, expanded developmental opportunities, and access to a larger support base.

We are extremely excited about the opportunity to unify our program's resources, participants, parents, supporters, and volunteers.

We believe by working together, we will be stronger and achieve much more than ever doing it alone.

We are already discussing plans for the 2024 spring season.

We would enjoy answering any questions. Please email [futurecardinaldiamondsports@gmail.com](mailto:futurecardinaldiamondsports@gmail.com)

Thank you,

Future Cardinal Diamond Sports
