TRAK CNC

Kent (USA) Model KGS-618
Precision Surface Grinder

- Roller ball on linear table ways for easy and smooth longitudinal movements
- Ultra-high super rigid H-frame column with 21" spindle center to table for more clearance under the wheel than any other machine in its class
- Flange-mount 3.35" diameter spindle cartridge design provides unmatched heavy grinding with superior side-grinding rigidity
- Large metal hand wheels on all axis for long lasting dependability and easy operation
- Over 2400 pound net weight, almost twice as massive as our competition
- Centralized one-shot lubrication system provides lubrication to all points
- Safety 24V control circuit power
