WHY SUPPORT A FILM FESTIVAL?

The biggest barriers to change are false narratives about incarceration survivors. These narratives were created by media and we can change them through media. The film festival centers on voices of incarceration survivors to change the narrative and empower their communities to remove barriers to reentry.

WHAT HAPPENS AT AN INTHRIVE FILM FESTIVAL?

More than just films, the film festival brings together incarceration survivors, advocates, allies, and the public to experience art, hear from incarceration survivors, and network with organizations lead by or working with incarceration survivors.
