

**SUSTAINABILITY POLICY**

At History Travelers, we believe that the journey toward a prosperous and equitable future is intrinsically linked to the preservation of our natural environment and the promotion of harmonious social relationships. We recognize that without a healthy ecosystem, sustainable social development cannot be achieved—and without strong social ties, economic prosperity is meaningless. Therefore, we are firmly committed to operating under the principles of the United Nations Sustainable Development Goals (SDGs).

**1. Conservation of Natural and Cultural Heritage**

We strive to minimize the negative impacts of our activities on the environment and on the historical sites we visit. We promote the long-term preservation of natural resources and biodiversity at every destination we explore, while respecting and valuing the cultural richness of each region.

**2. Equitable Socioeconomic Development**

We understand the importance of strong social relationships for sustainable economic growth. We work in collaboration with local communities to foster inclusive economic opportunities and empower individuals through decent jobs and fair working conditions.

**3. Promotion of Human Rights**

We advocate for universal human rights in all our operations and relationships. We are committed to respecting the dignity, diversity, and freedom of all people, regardless of ethnic origin, gender, religion, or sexual orientation.

**4. Partnerships for Sustainable Development**

At History Travelers, we recognize that tackling global challenges requires collaboration and strong partnerships. We are committed to building strategic alliances with companies and/or organizations aligned with our goals to promote sustainability in the travel industry. We work alongside our partners to exchange knowledge, resources, and best practices, encouraging a comprehensive approach

to sustainable development.

## **5. Peace and Justice**

We believe that sustainable tourism can play a fundamental role in promoting peace and justice. We foster mutual respect and cultural understanding through our trips, contributing to the construction of inclusive and harmonious societies. By supporting the SDGs of peace and justice, we advocate for equal rights and opportunities for all and reject all forms of discrimination or violence.

## **6. Planet and Climate Action**

We acknowledge the urgency of addressing environmental challenges, including climate change. At *History Travelers*, we strive to minimize our carbon footprint and promote more sustainable travel practices. We encourage the conservation and protection of natural resources in every destination, working to preserve the planet's beauty and biodiversity for future generations. By aligning with environmentally focused SDGs, we aim to be agents of change in global climate action.

**At *History Travelers*, our sustainability policy is more than a commitment—it is our compass for every step we take toward a better future. We are dedicated to creating meaningful experiences that honor our planet, our cultures, and our communities, promoting a journey toward shared prosperity and global harmony.**
