

Sustainability Policy

At **History Travelers**, we believe that the journey to a prosperous and equitable future is intrinsically linked to the preservation of our natural environment and the promotion of harmonious social relations. We recognize that without a healthy ecosystem, we cannot achieve sustainable social development, and without strong social relations, economic prosperity is meaningless. We are therefore firmly committed to operating under the principles of the United Nations Sustainable Development Goals (SDGs).

1. Conservation of the natural and cultural heritage:

We strive to minimize the negative impacts of our activities on the environment and on the historic sites we visit. We promote the long-term preservation of natural resources and biodiversity in every destination we explore, respecting and valuing the cultural wealth of each region.

2. Equitable socio-economic development:

We recognize the importance of strong social relations for sustainable economic growth. We work with local communities to foster inclusive economic opportunities and empower people through decent jobs and fair working conditions.

3. Promotion of Human Rights:

We advocate universal human rights in all our operations and relationships. We pledge to respect the dignity, diversity and freedom of all people, regardless of their ethnic origin, gender, religion or sexual orientation.

4. Partnerships for Sustainable Development:

At History Travelers, we recognize that addressing global challenges requires collaboration and strong partnerships. We are committed to forging strategic alliances with companies and/or organizations that are aligned with our goals to drive sustainability in the travel industry. We work together with partners to exchange knowledge, resources and good practices, promoting a holistic approach to sustainable development.

5. Peace and Justice:

We believe that sustainable tourism can play a key role in promoting peace and justice. We foster mutual respect and cultural understanding in our travels, contributing to the construction of inclusive and harmonious societies. By supporting the SDGs of peace and justice, we advocate equal rights and opportunities for all, and reject any form of discrimination or violence.

6. Planet and Climate Action:

We recognize the urgency of addressing environmental challenges, including climate change. At History Travelers, we strive to minimize our carbon footprint and promote more sustainable travel practices. We promote the conservation and protection of natural resources in each destination, working to preserve the beauty and biodiversity of the planet for future generations. By aligning with the environment-related SDGs, we seek to be agents of change in global climate action.

At **History Travelers**, our sustainability policy is more than a commitment, it is our compass in every step we take towards a better future. We are dedicated to creating meaningful experiences that honor our planet, our cultures and our communities, promoting a journey towards shared prosperity and global harmony.
