COMPANY OVERVIEW

Magnaphil Systems Sales engaged in providing IT parts and services for Telecommunications, Closed Circuit Video Equipment (CCVE), Audio, Office Automation, Structured Cabling and Digital Printing. Which gives our customers a complete system from design to installation, testing, commissioning and maintenance.

Established in July 18, 1997 to meet the increasing demand for telecommunication services. It began its operation then as a designer and installer of telecommunications outside plant and in house cabling systems, and installer of Intercom/PABX Systems.

We are a certified installer of Structured Cabling System for data, voice, and video applications. We also offer services in the design and installation of Local Area Network (LAN), Campus Wide Networks and Fiber Optic Cables and Accessories which brought us to one of the leading University in Mindanao last 1998, to install a campus wide data and Telephone Network (a complete data and voice network system that includes a fiber electronic data equipments, and PABX System).

We also expanded its product lines to include Document Management Systems (DMS) and Fire Alarm Systems. Duly appointed as exclusive distributor of DUPLO Digital Duplicator, Panasonic DLP Projectors and an authorized distributor of CANON BIS products to serve the need for quality printing management solutions.

Magnaphil Systems Sales intends to provide our every customer with a broad range of hardware, software and services, package in a solution- based to approach for productivity and cost efficiency for your organization. Endeavor to provide customer satisfaction and consistency with the latest trends of our technology at a fair reasonable cost and supplemented with courteous and efficient services.
