Requesting Permit Information from Secretary of State's Safe Ride Section

Sharon Elders, Supervisor in Driver Services Department, shared a form you can access from our ILAPT website. It is called, Safe Ride Section Request Form, located in the Members Only link. This new form allows school bus employers to receive their driver's permit number and expiration date through fax from the Safe Ride Section. The fax number is included on the form. Before faxing the form, list the driver names and license numbers. Upon completion you will receive a fax with the information requested. Thank you Sharon, for sharing an easy way to update our driver databases!
