July 7, 2014

MS. NANCY RENEE BRANDOW & MS. PATRICIA LOUISE GARDNER
1117 MAIN RD
BRADFORD ME 04410-3008

Congratulations on your new Labrador Retriever and welcome to the world of purebred dogs. Your AKC registration dollars support numerous AKC efforts to benefit dogs and dog owners. By registering your dog with the AKC, you supported valuable programs such as Canine Search-and-Rescue, the AKC Canine Health Foundation, the AKC Kennel Inspection Program, public education, canine legislation, and DNA parentage verification.

AKC registration provides wonderful opportunities for every purebred dog lover. The AKC Canine Good Citizen® program is an outstanding way to train your dog in basic obedience, valuable for every family. In addition, many dog owners enjoy the thrill of participating in AKC activities, shows and trials throughout the country. I invite you and your dog to get involved with the AKC!

Since your Labrador Retriever is a newly registered purebred dog, the AKC has arranged a **Complimentary 60-Day Trial AKCSM Pet Healthcare Plan*** for your new puppy—at no cost to you—but you must call PetPartners at 1-866-725-2747 or go online to www.akcpethealthcare.com/trial to activate your plan and get details about this wonderful benefit. The cost of veterinary treatment has increased dramatically in recent years and the AKC Pet Healthcare Plan helps you pay your vet bills if your pet has an accident or is ill.

Please note, if you ordered multiple items at the time of registration, they will be mailed separately and should arrive shortly. These include the AKC Certified Pedigree, the Dog Care and Training video, *Family Dog* magazine, and the AKC collar tag. If you did not order a Pedigree, you still have the opportunity to do so. An order form is provided on the back of this letter.

All of us want to be responsible dog owners. To help, the AKC offers a wealth of information at www.akc.org. Our site lists national and local dog clubs and AKC Canine Good Citizen® evaluators. Please visit us online and on Facebook and Twitter. If we can be of further service to, please contact us by phone at 919-233-9767 or by email at info@akc.org.

Sincerely,

Dennis B. Sprung
President and Chief Executive Officer

*The 60-Day Trial Plan is provided by the master policy issued to the Association of American Pet Owners. Activation required. Administered by PetPartners, Inc. Underwritten by American Pet Insurance Company, 907 NW Ballard Way, Seattle WA 98107-4607. Not available in all states and only available to U.S. residents. Eligibility restrictions apply. Contact PetPartners, Inc. for terms and conditions. Must be activated within 28 days of AKC Certificate Issued date. Visit www.akcpethealthcare.com/trial or call toll free at 1-866-725-2747.

Please separate below and keep for your records.

Veterinary Instructions

Clinical findings based on cardiac auscultation is required. (see page 2)

- Auscultation is within normal limits. Additional diagnostic studies not indicated.
- Auscultation reveals a soft (grade 1 or grade 2) murmur at rest.
- Auscultation reveals a moderate to loud heart murmur.
- Auscultation was performed after exercise and revealed:
 - Normal heart sounds without a cardiac murmur.
 - A soft (grade 1 or grade 2) murmur.

Describe any cardiac murmurs:

- Timings: systolic diastolic continuous
- Point of maximal intensity:
- Mitral valve area
 - Aortic or subaortic area
 - Pulmonary valve area
 - Tricuspid valve area
 - Other location:
- Radiation or other characteristics: _____

Echocardiography if indicated (see page 2):

- Echocardiography with Doppler was performed and the results were within limits of normal.
- Echocardiography with Doppler was performed and the results were equivocal: mild congenital heart disease cannot be conclusively diagnosed nor excluded based on this study.
- Echocardiography with Doppler was performed and the results were indicative of congenital heart disease.

Describe any abnormal echocardiographic or Doppler findings, including transvalvular or other pertinent velocities in m/sec.

- pulse/continuous wave
- left apical/subcostal

Summary evaluation and opinion of the examiner:

- Normal cardiovascular examination—congenital heart disease is not evident
- Equivocal cardiovascular examination—congenital heart disease cannot be diagnosed nor excluded; status uncertain for breeding.
- Abnormal cardiovascular examination indicative of congenital heart disease; indicate diagnosis below:

I certify that the standards for cardiac examination as set forth by the OFA were carefully followed in performing this examination.

I DID verify tattoo/microchip on this dog I DID NOT verify tattoo/microchip on this dog
