How To Use This Guide

At Nick Taylor Plumbing Ltd, we understand that choosing the right products can sometimes feel overwhelming.

To help simplify the process, we have carefully selected a range of trusted and commonly recommended products that we regularly install for our customers.

Our guide is split into three simple categories:

Trade Range

Reliable, practical and cost-effective products suitable for everyday use.

Signature Range

A balance of style, performance and value, offering upgraded finishes and features.

Luxury Range

Premium products designed to provide enhanced aesthetics, comfort and functionality.

All products featured within this guide have been selected based on reliability, availability, manufacturer support and our own installation experience.

Once you have chosen your preferred product, simply let us know your selection and we will take care of the rest - including product sourcing, ordering, compatibility checks and professional installation.

Sit Back & Leave The Rest To Us

Once your product choice has been confirmed, our team will handle everything from ordering through to installation, helping to make the process as smooth and stress-free as possible.

Please note:

- Product availability may occasionally vary.
- Alternative recommendations may sometimes be suggested where appropriate.
- Final suitability will always be confirmed by NTP before ordering.
