

EDGE PROFILES

We offer 19 edges. And just one surface that is perfect for you. Once you choose a design, complete your plan by selecting a height and an edge. Some edge profiles may not be offered in all markets. Check with your local dealer for available options.

IDRIS EDGE (IM)

A reversed and sharply slanted mitered edge gives this profile a dramatic appearance.
Available depths: 6mm, 1cm, 2cm, 3cm.

CASCADE EDGE (VFZ)

Combines a reverse ogee edge stacked on top of a straight drop modernizing the traditional edge. Available depths: 6cm.

RIMROCK EDGE (MITERED)

The mitered edge is an edge assembled from two pieces to give a countertop with less weight the appearance of a much heavier one. Available depths: 6mm, 1cm, 2cm, 3cm.

RIDGELINE EDGE (TR3)

This simple, yet bold profile has a 1/8 radius. Available depths: 2cm, 3cm, 4cm, 6cm.

BRYN EDGE (VF)

This profile, often called a Reverse Waterfall, is a traditional design with a twist.
Available depths: 4cm.

SHALE EDGE (1Z)

This edge seamlessly integrates flush with a cabinet door creating a modern, sleek look. Available depths: 2cm.

MESA EDGE (QM)

This edge is a traditional ornate ogee edge reversed down, giving it a modern spin.
Available depths: 6cm.

CORNICE EDGE (MQ)

Our fullest ogee profile design, also called a Cove Ogee Over Ogee.
Available depths: 6cm.

MORAINE EDGE (CHISELED)

For a natural, rustic appearance, choose this hand-finished profile often named
Chiseled, Broken Edge, or Rock Face. Available depths: 2cm, 3cm, 4cm, 6cm.

LEDGE EDGE (MD)

Fading back at the bottom edge, this profile is sometimes named a Reverse Bevel or
Plater. Available depths: 3cm.

BOULDER EDGE (F+V)

This profile, often called Waterfall, is one of our most ornate. Available depths: 4cm.

VOLCANIC EDGE (V)

Deeply rounded at the top and bottom of the edge, this profile is sometimes also called a Bullnose or Full Bullnose. Available depths: 2cm, 3cm, 4cm, 6cm.

GLACIAL EDGE (FZ)

A classic ogee profile. Available depths: 4cm.

BASIN EDGE (FS)

Our thinnest ogee profile. Also called a Saskatoon Ogee or Short Ogee. Available depths: 3cm.

TREELINE EDGE (Z+S)

This angled edge is often called a Bevel. Available depths: 3cm, 4cm.

DOUBLE TREELINE EDGE (A+R)

An angled cut to both the top and bottom edges, sometimes called a Double Bevel.
Available depths: 2cm, 3cm, 4cm.

SUMMIT EDGE (T)

Both the top and bottom edge are rounded. It's sometimes called a ¼ Round Double.
Available depths: 2cm, 3cm, 4cm.

PIEDMONT EDGE (A)

Softly rounded on the top edge. Additionally referred to as ½ Bullnose, Demi Bullnose, or a ¼ Round. Available depths: 2cm, 3cm, 4cm.

SEACLIFF EDGE (Z)

The edge is beveled, not rounded, at the top. Often referred to as an eased profile.
Available depths, 6mm, 1cm, 2cm, 3cm, 4cm.
