### **THE SIDELIGHT OFFICIAL PUBLICATION OF KYSWAP, INC. LOUISVILLE, KENTUCKY**

**Deadline for articles is the 18<sup>th</sup> of preceding month in order to have it printed in the following issue.** Articles from the membership are welcome and will be printed as space permits. Members may advertise at no charge, either for items for sale or requests to obtain.

Editorials and/or letters to the editor are the personal opinion of the writer and do not necessarily reflect the official policy of the club.

## FROM THE PRESIDENT FRED TRUSTY

The main item I have to report on this month is the KYANA Region elections. Last month I listed 3 options that the board discussed and then I asked for your opinions. Thanks to all those that responded. I thought that having the election by mail would be a good idea but someone brought up the scenario of what if we can't find someone to run for an office. How could we take nominations from the floor? Good point. As it turned out almost everyone that responded suggested another option. Option 4 would be to leave the same directors in office until we can have the 2021 elections. After doing some research I found out that most clubs are doing the same thing, both at the national and local level. I was somewhat concerned about violating our bylaws but after looking at Article IV, sections 4 and 6, I believe it is permissible. See below:

*Section 4... The Executive Board shall have the power to proceed in any manner as may, in their judgment, serve the best interests of the Region. The decision of the Executive Board shall be binding until such time as a regular or special meeting of the regional general membership may nullify, amend or change such decisions by a majority vote of a quorum of at least 30% of the total membership.*

*Section 6... Said officers shall hold office for one year from the date of election or until their successors are duly elected and qualified. Two Board members shall be elected each year to serve a term of two years. Vacancy of President's office shall be filled by the Vice-President. All other vacancies shall be filled by the Board at its next scheduled meeting.*

Everyone that is currently on the board said they would run again for their respective offices except for me. I informed the board at the July meeting that I was not going to run for president again. But with the current situation of being unable to have a meeting and election, I agreed to continue for one more year. A couple of members have already accused me of personally going to China and bringing the Covid-19 virus to the U.S. just so I could be president of KYANA one more year. First of all, I have never been to China and don't ever want to go. Second, this is going to be my last year as president. Nine years is enough. Someone else is going to have to take the helm.

And now the 2<sup>nd</sup> item to report on is that AACA dues are going up \$5 for 2021 which will make them \$45 instead of \$40. Several people have questioned if it's because of the new headquarters building. The answer is no. Donations will cover the cost of the new building. There are several factors that contributed to the decision to raise dues. The biggest reason is the effects of the Covid-19 virus. There are only a total of 3 AACA national shows this year instead of the usual 8 – 10. AACA receives \$30 of each \$35 car registration fee with the other \$5 going to the host region. In 2019 there were a total of 2717 cars registered. You can do the math. Some of the trophies were already engraved for specific shows so the plaques on each trophy will have to be replaced so that is more unplanned expense plus the cost of the trophies has gone up significantly. There have been no national tours so there is no income from that either. Membership is down since we haven't had any shows in which to recruit new members. Car parts suppliers have drastically cut their advertising budgets so the income from ads in Antique Automobile have dropped significantly. And last but not least is inflation. The cost of goods and services has been steadily going up.

When you add it all up it amounts to a large decrease in revenue and a large increase in expenses. The term "nonprofit" is somewhat deceiving. Every nonprofit has to make a profit in order to pay their expenses so this is purely a business decision. If your expenses exceed your

income you won't be in business very long. The AACA has looked at the dues for various national car clubs and AACA is still at the bottom of the dues cost range. At \$45 per year AACA is still a bargain. **Since we have had very few events for 2020, the KYANA board has voted to absorb the \$5 increase for 2021. Please note that this is for 2021 only.**

Looking at 2021, it's very difficult to plan events not knowing what restrictions could be in place, especially when it comes to dinners. Since we have to sit at every other table, there are very few venues, including our own clubhouse that have enough room for 100 plus people which is one of the reasons why we cancelled the Christmas dinner. Since buffet lines are not allowed it would have to be a sit down served meal which means the cost goes way up. I guess we should be thankful that we still have our health and we can still drive our old cars. I look forward to meeting all of our new members and maybe someday we can sit down and talk about old cars over a nice meal.

**FROM THE SECRETARY MARK KUBANCIK**

**KYANA REGION BOARD MEETING**

September 8, 2020

**Location:** KYANA Clubhouse

KYANA Region Board members present: Brian Hill, Mark Kubancik, Brian Koressel, Pat Palmer-Ball, Chester Robertson, Roger Stephan, Fred Trusty, and Alex Wilkins.

KYANA member present: Pat Millhollan

Meeting called to order @ 6:33 p.m.

**Secretary's Report:** Pat moved to accept the August report, Alex seconded the motion, and the motion carried with all in favor.

**Treasurer's Report:** Mark made a motion to accept the August Treasurer's report. Brian K. seconded the motion and the motion carried with all in favor.

**Activities:** The board discussed plans for the St. Francis car show with the show sponsor, Roger. Roger or another board member will attempt to contact the church to determine if we can provide them food tickets in lieu of cash. Plans for the upcoming Lake Forest car display were also discussed.

The KY Railway Museum car show in mid-October is cancelled and will be removed from the event calendar. Alex is investigating the annual downtown Corydon car show on October 18. If the show will go on as scheduled Alex will again sponsor this event.

Donations for Toys for Tots were discussed as bicycles are in short supply and we will likely be unable to secure a significant number of bikes at bargain prices this year. Blame COVID for the bike shortage. The board also discussed both the adult and children's holiday parties and the impact COVID may have on these events. The board will continue to discuss and make decisions on each event as we get closer to the event.

Brian K. presented research he has performed on an overnight trip to Spring Mill, IN, planned for summer 2021. Brian will continue to research and provide an update at next month's meeting.

**Membership:** Roger initiated further discussion of pre-members that worked the 2020 swap meet but were not included in the list of official full members published in the August Sidelight. Following much discussion on the topic, Alex moved that any pre-member who joined in 2019 or 2020 and who worked at the 2020 swap meet will become a full KYANA member in 2020 due to the scarcity of scheduled events this year as well as due to COVID implications to attending any of the few events scheduled. Pat seconded the motion and the motion carried with Roger being the only board member opposed.

**Clubhouse:** The Red Cross is holding a blood drive at the clubhouse on Tuesday, Sept. 29. Several board members helped clear the upstairs space in advance of the drive.

**Sidelight:** The photo layout was noted as needing some improvement. Otherwise, nothing new to report.

**Web Page:** Nothing new to report.

**Old Business:** The board discussed election options based on member feedback requested in the August Sidelight. Based on that member feedback, Chester moved to carry the current slate of officers and board members into 2021 until such time as an in-person election process can be conducted. Brian K. seconded the motion and the motion carried with all in favor.

The process to distribute the gift cards for swap meet workers was discussed. The cards were just received and are still being sorted by members. Once sorted, the board will discuss an orderly process to distribute the cards. More to come on this topic.

**New Business:** Nothing to report.

There being no further business to discuss, Mark moved to adjourn. Pat seconded the motion and the meeting adjourned at 8:12 p.m. with all in favor. The next KYANA Region meeting will take place at 6:30 p.m. on Tuesday, October 13, 2020, at the KYANA clubhouse with social distancing practiced.

## KYANA EVENTS BY CHESTER ROBERTSON

KYANA is busy getting some events in this fall. First, you can call Roger and sign up for the St. Francis Car Show on October 3<sup>rd</sup>, taking place at Wolf Pen Branch Road. KYANA members always do well at this event carrying many trophies home.

On October 24<sup>th</sup> Toys for Tots will be held at the Ole KYANA Home with breakfast being served to the first 100 people. The trailer will be in the parking lot so everyone can drop off their toys right into the truck. We will have a tent outside with the boxed breakfast to help with the social distancing. At this point we don't expect to go on the inside of the building unless we have bad weather. Of course, the building will be open for the restrooms. It's a different way to handle this event, but it is the world we live in right now. We want everyone to be safe.

Also, on October 24 we will hand out our KROGER GIFT CARDS for working the Swap Meet at the Toys for Tots event. We will keep you in your car as you pass around to the different spots in the parking lot. The pick-up and drop-off will be from 9am to 11am. If you need to use the restroom or go inside you need to wear a face mask and practice social distancing.

On October 18th Alex Wilkins is hosting KYANA at the Corydon Fall Show in Indiana. For more info see Alex's ad in this Sidelight.

Next month we will be going to Middletown for the Kentucky Veterans Day Parade on November 7<sup>th</sup> at 11am. This event will be held on Main Street. Please call me for more info. Be safe and come on out..

## PRAYERS, THANKS AND CONGRATULATIONS

- ✚ Let us continue our prayers for Dwight Hardesty as he recuperates from his accident.
- ✚ Michael Bryant is still recuperating from his fall.
- ✚ Suzanne Lyall as she recuperates from her rotator cuff surgery.
- ✚ Anthony Clayton as he begins healing from his surgery.
- ✚ KYANA extends their sympathy to the family of Don Sisco.

If anyone is having surgery please contact me and we will see that you are lifted up in prayers and if you spend the night you will receive a nice fruit basket from KYANA. We care about each of you. Stay well Patsy

## ANNUAL FALL CAR SHOW IN CORYDON

On October 18, the Hoosier Knobs Car Club will be having their annual fall car show in the Old Capital Square in Corydon. This is a very nice and relaxing event that was well attended last year. Come on out, bring your lawn chairs, and we can socialize at a distance in the shade. The Hoosier Knobs Car Club will have a cook-out with delicious baked goods for sale.

The show runs from 11AM to 4PM, but we will need to get there earlier to claim a good parking area as a group. Let's meet in the parking of the Corydon Walmart at:

2363 Highway 135 NW  
Corydon, IN 47112

We will meet at 9:30AM and leave for the show at 9:45AM. If you miss us, you can meet us at the square in downtown Corydon. The entrance to the show is right next to the Visitor Center at:

310 N Elm St  
Corydon, IN 47112

## KENTUCKY VETERANS DAY PARADE

KENTUCKY VETERANS DAY PARADE  
2020 Grand Marshal - Women on the Home Front

Main Street  
Middletown, Ky.  
November 7 @ 11am  
Call Chester to register and for info--time & staging  
Need 15 to 20 cars

## TIME AGAIN TO "PAY YOUR DUES" ...

In an effort to avoid late processing of dues applications sent to the AACA national headquarters, we are kindly requesting that all KYANA members submit their dues payments to the Secretary on or before December 1, 2020. In recent years, KYANA's large bulk dues mailing has arrived at AACA headquarters along with many other region and chapter dues, leading to long delays processing memberships. Receiving your dues payment before December 1 will allow the AACA office staff more time to process our memberships. This is especially critical this year as some AACA staffers are still working limited office hours. Thank you in advance for your cooperation.

Please send your dues payment of \$50.00 (\$10.00 for KYANA + \$40.00 for AACA National) to Secretary Mark Kubancik at the address below. Make your check payable to KYANA.

When submitting your dues payment, please take a moment to complete the dues submission form in this month's Sidelight. Many of you have changed email addresses or have new mobile phone numbers. Providing us with your updated contact information allows the Club to contact you with health updates regarding fellow members and notify you in the event of special meetings, events or event schedule changes. Again, thanks for your cooperation completing the dues form.

Contact me with any questions regarding your dues submission.

**Mark Kubancik, Secretary**

**11403 Saratoga Ridge Dr**

**Louisville, KY 40299-8313**

Phone: 502-797-8555

Email: mark.kubancik@gmail.com

## NEW MEMBERS UPDATED

### MORE PRE-MEMBERS ARE BEING ADDED TO OUR FULL MEMBERSHIP LIST

In the September issue of our Sidelight, I wrote an article listing the newest members of our club. All of these members joined our club in 2019 and worked the 2020 swap meet. At our September 8<sup>th</sup> board meeting there was a discussion about other pre-members who also worked our swap meet but had not been a pre member long enough to have fulfilled all of the six events required for them to become full club members. After a lengthy discussion back and forth a motion was made to accept all pre-members who worked the 2020 swap meet as full members. The reason behind their decision is the Covid -19 virus. As all of you know, it's difficult to make plans and commitments during these uncertain times. KYANA has had to cancel most of its 2020 event schedules. People are afraid, and they have good reason. We have no idea how long this might last until life gets back to normal. So for that reason your board of directors decided to make any pre-member who worked the 2020 swap meet a full member immediately, regardless of the date they joined our club or how many club events they have attended. I guess you might say that unusual times call for unusual remedies. I believe your board members are trying to do they think is best for our club and its future. Please note that this is a onetime decision and future pre-members will be required to meet the stipulations of the bylaws by working the swap meet and attending at least six events during their first year of membership.

Roger Stephan Membership chairman

Please note that this is a onetime occurrence.

**Free boxed breakfast to the first 100**

**Sponsored by:**  
**KYANA Charities**

We will have the trailer in the parking lot so everyone can drop off their toys right into the trailer. We plan to have a tent outside with the boxed breakfast to help with the social distancing. At this time we do not plan to use the inside of the building unless we have bad weather. Of course we will have the building open for the restrooms. It's a different way to handle this event, but it is the world we are in right now. We want everyone to be safe.

## WHAT ABOUT STREAMLINED CARS?

Do you like aerodynamically designed automobiles? Indeed, they go faster, with less air resistance and lower fuel consumption. How did they start? What is the origin of streamlining vehicles? Who started this trend? Here is at least some of the story.

For most of us in this country, we think first of the 1934 Airflow. The concept came in the mid-1920s as Chrysler's personnel had been observing airplane design. Experimentation included wind tunnel research with the advice of Orville Wright (one of the Wright brothers – of the 1903 airplane flight fame). Airflows came in two versions: an eight-cylinder, luxurious Chrysler Airflow and a simplified six-cylinder, De Soto version.

Upon their marketing they were a sensation, but quality was substandard, and sales during the depression was low. They had better weight balance than most vehicles and boasted safer, all-steel, uni-body construction. Chrysler also marketed aerodynamically designed Airstream travel trailers: however, Airflow manufacture ended in 1937, with under 30,000 cars sold. Nevertheless, these automobiles were a stimulus to the future design and production of aerodynamically shaped cars... the advent of streamlining. Similarly, such efficiently designed vehicles were also produced in Europe for year.

In 1925, a Hungarian automotive engineer, Bella Barenyi, of the Austro-Hungarian Empire, is credited with having first designed an automobile with an aerodynamic shape. This car became the stimulus for the design of Germany's Volkswagen Beetle and it, too, was streamlined. After All, they both initially shared very weak engines, so a low drag coefficient was a boost to performance.... a good idea!

Tetra, a Czechoslovakian automobile company founded in 1850 produced some of the world's earliest cars in 1897. Their streamlined Tetra V570 first entered into production during 1933, but ended following the 1938 German occupation of Czechoslovakia; nevertheless, it was a direct ancestor to the aerodynamic style of the Volkswagen Beetle.

In 1934, Adolf Hitler called for the design of a "people's car" and several prototypes emerged in 1936. Volkswagen is the German word for people's car. These vehicles were ahead of their time in mechanical innovations, such as with an automatic choke, four-wheel independent suspension, and light alloy, air-cooled engines.

In the 1930s, French manufacturers also began production of their own aerodynamically designed automobiles. Citroen introduced such cars in 1936, most famously for the Citroen 2CV. Peugeot produced a streamlined car, too. Most of the world's car bodies in the early 1930s were little streamlined, but they were increasingly aerodynamically styled by the later 1930s. Civilian production of European vehicles mostly ended with the onset of World War II. The manufacturer of American cars was also somewhat restricted. Yet, streamlined automotive body profiles, in various degrees, remain popular to date.

Please enjoy the pictures below.

1934 **Chrysler Airflow**

1938 **Volkswagen**, a close copy and very successful famous Beetle, a long-produced automobile

Another VW

Later Tetra, a streamlined production vehicle

## KENTUCKY RAILWAY MUSEUM

I have heard from a board member of the Kentucky Railway Museum and the board with great regret has cancelled the their car show for 2020 not only due to the virus but the city will be doing construction on the road and parking lot of the museum. They apologize for any inconvenience but hope to host the show in 2021. All pre-registration fees will be refunded.

Lets all hope for a better 2021!

Neil White
