THE SIDELIGHT

OFFICIAL PUBLICATION OF KYSWAP, INC.

LOUISVILLE, KENTUCKY

The deadline for articles is the 18th of the preceding month to be printed in the following issue. Articles from the membership are welcome and will be printed as space permits. Members may advertise at no charge, for items for sale or requests to obtain.

Editorials and/or letters to the editor are the opinion of the writer and do not necessarily reflect the official policy of the club.

The Sidelight is automatically delivered to all members by email each month.

Anyone wishing to receive a paper copy via US mail may email the editor (preferred) at sidelighteditor@gmail.com, or call Kim Steinke (502) 836-0154.

FROM THE PRESIDENT, MARK KUBANCIK

Happy Anniversary, KYANA! I was reading the letters to the editor in the current AACA magazine, *Antique Automobile*, and read about another region congratulating itself on achieving 70 years of existence. I paused and thought about KYANA and when we began. A quick text to Fred Trusty confirmed my recollection that KYANA formed in 1956, making this our 70th year of existence. Thanks to those who came before us and formed the club, grew the club, started and grew a swap meet, purchased our KYANA home, and wisely managed our finances, KYANA is stronger than ever! In just the past few years, the club was restructured to ensure long-term viability, we started a successful fundraising annual car show, and we added many active new members. The future of KYANA is bright, proving that despite our focus on the past, we can still adapt to the changes 70 years of existence and beyond bring to our door.

Last month, my President's message and the board minutes highlighted our focus on the future and financial viability regarding a dues increase. I shared that dues

have remained unchanged at \$10 per family per year since 1986. Since that time, the value of that \$10 has declined by two-thirds, while costs have continued to rise. Feedback from membership was requested, and the only two comments received were supportive of the board's action. In the board minutes from February's meeting, you will read that following a discussion on the topic, including the need to abide by the club's bylaws, a motion was made and unanimously accepted to increase dues in 2027 to \$25. This increase will allow the Region to sponsor a few more events and cease the continuous solicitation of support from our sister clubs.

Why did the board take action so swiftly? Article VI – Dues, Section 1 of the Region bylaws states the following: The amount of dues shall be determined by majority vote of the Executive Board. If the amount of dues is changed, said change must be ratified by a vote of the general membership. Lately, due to increased membership, it has been a challenge to achieve a quorum at all our general membership meetings and activities. Knowing that the Swap Meet Planning Meeting is one of our better-attended events, the board agreed to take action on the dues increase so that a vote can be taken at the March 1 planning meeting. Assuming the increase is ratified, we plan to implement the dues increase in October when we begin collecting 2027 dues.

Besides the dues vote, the Swap

Meet Planning Meeting will be important for several reasons, including learning about all the changes at the KEC just since last year, and for registering to work for one of the Swap Meet chairpersons. Please plan to attend this important meeting.

As we move ever closer to spring, we are beginning to see some outdoor events on the KYANA

calendar. The Easter Egg Hunt returns on March 28, and I'm pleased to announce that the Salvage Yard Tour returns April 4 with a new yard in southern Indiana that we have never visited. KYANA Cars & Coffee returns for the season on April 18, along with the rescheduled World of Wheels. Details on all these activities can be found in the following pages of this Sidelight.

Remember, it is supposed to be fun!

KYSWAP SWAP MEET BUSINESS PLANNING MEETING

We need your help to get the Swap Meet across the finish line. Please volunteer! Sign up To work a shift at the KYANA Swap Meet during the meeting this Sunday! Committee chairs will be there so you can sign up to work.

WHO: ALL MEMBERS AND PRE-MEMBERS

WHERE: KYANA Clubhouse

TIME: 1:00 Social, 2:00 pm meal and meeting

**COST: \$10 per person, in advance, before
February 21, 2026**

Mail Check made out to KYANA to:

Morgan Howard

5408 St. Gabriel Lane

Louisville, KY 40291-1614

KYANA EVENTS BY CHESTER ROBERTSON

Chester

If you have ridden down I-65 and had a chance to look over at the Kentucky Fairgrounds, you can see that things are changing...

FAST! The KYANA Swap Meet knew it was coming, and the reality is, it is happening now. The new building is currently being built right over one of the buildings we've been using for 30 years.

The construction has some immediate effects on this year's Swap Meet: fewer overhead doors for vendors to get in and out, fewer ticket booths, and fewer parking passes for our workers. That said, the KYANA Swap Meet committee chairs are working with these new circumstances and have created a plan to get vendors in and out as efficiently as possible. Additionally, they are working with the Kentucky Fairgrounds management every week to stay on top of any changes or adjustments we may need to make due to the evolving circumstances posed by the construction.

We will have 3 overhead doors

this year. The main door is W-5, where about 900 vendors will come in AND out on set-up day. This seems like an impossible task, but with your help, we can get our vendors in and out on time. Plans are in place to have ticket sellers available first thing Saturday morning to handle the rush. We will be selling tickets outside, weather permitting, on Saturday morning. If you have never volunteered before, we need you! New members, old members, we need you all, and it is an expectation that you will be able to contribute 4 hours at some point during the four days to help make the Swap Meet successful. We are all going to be operating in new territory this year, and we desperately need everyone's help! Please make plans to work Thursday/Friday/Saturday or Sunday (or all). There are shifts available on all days and even some on Saturday night!

Come to the meeting at the clubhouse on Sunday, March 1st, and sign up for a shift. It is too late to get a meal, but we still need to see you and get your help!

The KYANA Information Booth at the 2025 Swap Meet.

We need YOU to help at this booth and the doors in 2026!

KYANA COMMUNITY

I hope everyone stayed safe during our snowy, icy start of 2026! The warmer weather sure makes us look toward Spring and more opportunities to get outside (and get our cars out)

Kevin Alwes was hospitalized and is now home recovering.

Likewise, Brian Zurschmeide was also hospitalized. He, too is recovering at home. Kevin and Brian both received fruit baskets from KYANA. We hope both make a speedy recovery.

Marsha Garey left us a lovely message thanking KYANA for the fruit basket she and Jamie received.

Nancy Ray

You know that KYANA Car Club sends flowers when a member passes away? Did you know the club will send a nice fruit basket when you are released if you or your spouse is hospitalized (minimum 2 days inpatient)? Please let me know when these events occur so I can ensure they are sent. If you are aware of a member dealing with illness, surgery, or the loss of a family member, please don't

FROM THE SECRETARY, CAROL BASS

KYANA Region Board Meeting Minutes – February 10, 2026

Location: KYANA Clubhouse

KYANA Region Board

Members Present: Carol Bass, Mark Kubancik, Reagan Lanum, Chester Robertson, Ned Steinke, Shawn McDonald, and Brian Koressel

KYANA Region Members

Present: Jerry Bass, Kim Steinke, and Butch Mahoney.

Meeting called to order at 6:29 p.m.

Secretary's Report: Brian Koressel moved to accept the January report, Shawn McDonald seconded the motion. The motion carried with all in favor.

Treasurer's Report: Shawn McDonald moved to accept the January report, Ned Steinke

seconded the motion. The motion carried with all in favor.

The board discussed what we have paid to the AACRA and how much we still owe. The Board discussed raising membership dues from \$10 to \$25. Shawn McDonald moved to raise Region dues to \$25 effective in 2027. Ned Steinke seconded the motion. The motion carried with all in favor. To abide by the bylaws, a vote will be taken at the March Swap Meet Planning meeting.

Activities: The board discussed the Swap Meet only getting half the parking passes that we received in the past years and that we won't have any passes to sell to the vendors. There will be a Food Truck in the Car Corral for anyone that is interested, credit card only. The Board discussed raising the cost of a booth for the vendors. Chester

Secretary's Report, continued

Robertson informed the Board that the venders are being notified of a price increase for 2027.

New events: Mark Kubancik talked about the Salvage Yard tour that will be in N Vernon, IN on April 4th. Easter Party which will be held on March 28 th .

Membership: Carol Bass updated the board on the pre-members complimentary AACA forms, which are all going to be complimentary for this year. Carol is waiting for Karen White to issue AACA numbers. Carol will then follow up with dues after receiving AACA #'s. The Board decided that February 21 st will be the cut-off date for non-renewals.

The Board also discussed having a table set up at the November Awards and Election Meeting to collect dues next year.

Clubhouse Rentals: Nothing to report.

Sidelight: Nothing to report.

Web Page: The club won the AACA Web Master Award.

Region Facebook Page: Nothing to report.

Old Business: Mark Kubancik talked about the By Law update. Kim Steinke talked about Text communications. She is working on setting up the portal. After Kim gets everything set up she will then talk to Chris Mueller in regards to the dollar amount.

New Business: There will be no Car Corral at the Swap Meet next year. Talked about moving the Car Corral inside.

A motion to close the meeting was made by Reagan Lanum and seconded by Shawn McDonald. The meeting adjourned at 7:28 p.m. The next meeting will be held on March 10 th at 6:30 p.m.

BLUEGRASS WORLD OF WHEELS

APRIL 18-19, 2026

KYANA will have four cars in the show again this year. Come on out and see all of the cars! There will be classics, street rods, and restomods from local and national collectors.

The Bluegrass World of Wheels 2026 is scheduled for Saturday, April 18th, and Sunday, April 19th, at the Kentucky Exposition Center in Louisville, KY.

<https://bluegrassworldofwheels.com>

WE NEED YOU!

KYANA Swap Meet Volunteers Needed!

KYANA's annual Swap Meet in March succeeds year-after-year thanks to our many member volunteers. The two functions with the most need are admission sales at entry doors and security monitoring at the remaining entrance and exit doors at the KEC. We again will be seeking volunteers to work both admission sales and door security at the Swap Meet.

Admission sales have a variety of shifts available Friday afternoon, all day Saturday, and Sunday morning. **Joanna Miller** will again be scheduling volunteers for admission sales. If you work for Joanna, you will be responsible for selling admission wristbands, ensuring the wristbands are worn by attendees, and checking those that walk in are wearing their wristbands.

Security volunteers will be assigned a four or five hour shift and a door to monitor. You are responsible for monitoring

the door, checking people entering that door to ensure they have the proper wristband to enter. You are provided with a comfortable chair while performing this task. We monitor doors Friday afternoon, all-day Saturday, with both morning and afternoon shifts available Saturday, and Sunday morning. **Mark Kubancik** will again be scheduling security volunteers.

Your requests to work admission sales or door security will be recorded at the Swap Meet Planning Meeting March 1st. If you will be unable to attend this meeting but want to volunteer or have a specific request for a particular date or time, please feel free to contact Joanna or Mark before the meeting viaa phone or email:

2026 KYANA SALVAGE YARD TOUR

Saturday, April 4th

Mark your calendar for Saturday April 4! The KYANA salvage yard tour returns this year, and

I'm pleased to announce that we will be visiting a new-to-KYANA yard near North Vernon, Indiana. KYANA members Ray Hayes, Rob Johnson and I made a scouting visit on February 18th and met with the yard owner. He allows everyone to roam the 36 acre yard and remove any parts they wish to purchase. Photos from our scouting trip will be shared on the "big screen" at the Swap Meet Planning meeting on Sunday, March 1.

Meeting Location – Please plan to meet at the Memphis, Indiana McDonalds located at 13615 Blue Lick Rd, Memphis, IN 47143. This McDonalds is part of the Loves Travel Stop at the Memphis exit 16 of I-65N. We will gather at McDonalds at 8:00 a.m. and depart for the salvage yard at 8:30 a.m. There is ample parking at the truck stop so we again encourage you to carpool with fellow members as parking at the salvage yard is limited. We will be traveling I-65N to Seymour, then traveling US-50 east, then turning north to the yard. Note: If you attended last year's salvage yard tour, this is the same meeting location.

Lunch Details – Lunch is optional on the salvage yard tour, though highly recommended as a fun way to conclude the day's events. We will be dining as a group at NV China Buffet in North Vernon, IN. This is an Asian buffet with traditional Asian favorites, sushi, and select American choices. Dessert and a soft drink is included. Should you

choose to dine, please plan to mail your check or pay me \$8.00 before or the day of the tour. Cash or check payable to KYANA accepted.

Directions – I'll bring complete directions with GPS addresses to our meeting location on the morning of the tour. The route is not complicated and runs mostly on US or state roads.

Preparation - Most salvage yards in early spring can be very wet, muddy, messy places, and this yard is no exception. Please plan accordingly, dress in old clothes, and wear boots or footwear appropriate for muddy and dirty conditions. You may want to bring a change of shoes to wear on the return trip. Other suggested attire includes gloves and rugged pants to battle the briar bushes. Bring your own tools if you plan to remove any parts. Finally, several cows roam one part of the yard, so watching where you step is recommended!

The KYANA salvage yard tour is always a fun event so hopefully many of you will be able to attend. Guests are always welcome! If you are a new KYANA member and wonder what the salvage yard tour is all about, you can view photos from prior year tours on the KYANA Region website: <https://kyanaregionaaca.com/photos>

If you plan to attend the salvage yard tour on April 4, please contact me via phone, text, or email (listed below). Let me know if you plan to dine with the group and the number in your party so they can be included in the restaurant count.

KYANA CHARITIES - OPEN POSITION

A big **Thank You** to **Sandy Joseph** who retired as KYANA Charities Secretary after seven and a half years of dedicated service.

With Sandy's retirement, the Charities board is now seeking a qualified candidate to serve as board Secretary. The Secretary is an appointed position with no voting privileges. Board meetings are normally held every other month but sometimes every month depending on the issues at the time. Skills needed/Responsibilities include:

1. Proficient with Microsoft Office
2. Attend board meetings and general membership meetings
3. Record the minutes and email to the entire board in a timely manner.

If this is something that interests you, please contact:

Fred Trusty, KYANA Charities President
502-292-7008

or bearcamp1988@gmail.com

Any KYANA member in full member status (no pre-members) are welcome and eligible to apply and serve.

KYANA EASTER EGG HUNT

WHO: CHILDREN & GRANDCHILDREN of MEMBERS

WHEN: SATURDAY , MARCH 28th

WHERE: KYANA Clubhouse

TIME: 12:00 noon

Mark your calendar and call or text sponsors by March 22nd with the number of children and adults who will be attending so we have enough supplies and goodies! Fun games, pizza & fruit lunch, and a visit from the Easter Bunny!

SPONSORS:

Bev Foster 502-415-1236

SURFACE CARBURETORS: ONE EARLY TYPE

by Steve Lippmann

History: We know little about the very first carburetors. Probably, the earliest carburetors began emerging by the 1700s. They gradually improved over time, and in the 1820s, they initially included various ways to mix turpentine vapor with air sucked into engines by vacuum pressure. Mechanical folks all over the world then began building increasingly more sophisticated versions. Over time, alcohol, gasoline, and many other options served as different energy sources. The first documented internal combustion engine to use an actual carburetor was said to be in the Netherlands.

Development: In 1826, Samuel Morey famously registered a US patent for a so-called surface version or "surface carburetor"; it ran a two-cycle engine. Atomizer devices were developed later, about 1870. In Austria, in 1875, a carburetor-fed engine actually ran an automobile with an atomizer-type carburetor. More upgrading followed in many places, especially in Italy. By 1884, English inventors built the first recorded spray carburetors. With Bernoulli's Principle, fuel was sprayed into an airstream for mixing. Each innovation in design used past products as a guide in developing the next generation of progress. In 1885, a German vaporizer design yielded more efficiency. Increasingly advanced ones were soon manufactured and are similar to the ones used in car

engines of the 1900s; these later carburetors were early float-type designs. They were copied from previous varieties, improved, and used the latest technology, and were patented in 1886 by Benz. His design, together teamed with Daimler and Maybach, developed what became the industry standard for many years.

Surface Carburetors: These were some of the very earliest carburetors, all during the early 1800s. They were initially derived from motorbike engines. Surface carburetors are an enclosed box-like, simple, metallic device mounted above a fuel tank; while unreliable and inefficient, evaporation was the way it made fuel available to mix with air to run a 2-or 4-cycle internal combustion engine. They worked and led to further technological development. These carburetor walls had several holes and a throttle control mechanism. The picture visually helps explain the mechanism.

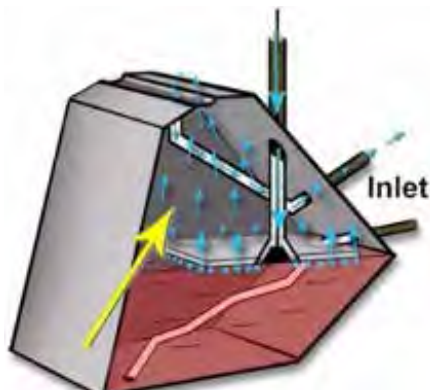

A tube in one of the openings brought fuel up from the gas tank and immediately into the bottom of the carburetor, forming a liquid pool. A hole at the top pulled air in from outside and routed it downward, allowing it to bubble through the pooled fuel at the bottom. Air mixed with fuel vapors then emerged into the upper region of the carburetor. In the middle between them was a partially covering surface plate; it adjusted

to the level of the fuel fluid beneath it and was open enough to allow evaporative fuel fumes, now with air, to accumulate above the plate. A wick in the fuel was added in some versions to augment evaporation/air exposure. Also, there was an outwardly directed pipe above the plate that transmitted the air/fuel mixture to the engine.

As the engine started, it created suction - drawing vaporized fuel with air into the engine to provide combustion in a cylinder. The vacuum created thus increasingly sucked more fuel from the tank into the carburetor bottom, drew in atmospheric air, and pulled the now homogeneous aerosol mixture into the engine for combustion. A manual air throttle control on the top of surface carburetors could regulate the flow velocities and alter the engine rpm speed. It worked by adjusting the richness of the fuel/air mix fed into the engine.

As the engine heated, it warmed the carburetor, increased the air inlet velocity, also the fuel entry stream, and augmented the

supply of the combustible vapor mixture continually flowing to keep the engine running. Heat also greatly increases the speed and degree of fuel evaporation. Some versions mounted means to pass hot exhaust near or at these mechanisms for higher temperatures (... maybe not the

fire-hazzard safest design?).

Nevertheless, surface carburetors did allow engines to function and were a step toward better, more modern techniques. A later generation of carburetors are the ones most popular in our lifetimes.

KYANA BYLAW UPDATE

Following bylaw procedure, the language below regarding 50-year KYANA life membership was posted in the Sidelight for three consecutive issues in 2025. With a suitable quorum of voting members present at the November 2025 Awards & Elections meeting, a vote was taken to update the bylaws and add this language to the bylaws. There were no dissenting votes, and the updated bylaws will appear in

the next edition of the KYANA roster scheduled for completion in the first quarter of 2027.

Section 6... Lifetime Membership: Any member who achieves 50 years of continuous membership will be designated as a KYANA Lifetime Member. KYANA dues for such lifetime members will be waived in years 51 and thereafter.
