

## 2025 Impact Statement

*Empowering Excellence in Our Schools*

Since our founding in August 2017, the Haddon Township Education Foundation (HTEF) has steadily advanced its mission to enrich learning experiences for all Haddon Township students. In our early years, we focused on establishing the foundation and building relationships within the community. By 2018, we began awarding our first classroom-level grants to faculty and staff. Over the years, our efforts have expanded: as of 2025, we have raised nearly \$300,000 through a blend of generous donations and engaging events such as annual raffles, golf outings, and festive gatherings at the Haddon Square. More than 250 dedicated volunteers have contributed to the success at over 25 fundraising events.

Our grants have had a meaningful impact at every level—classroom, school, and district-wide. For example, in 2025, we were delighted to fund new science lab equipment and a life-size skeleton, providing students with hands-on lessons that brought textbook concepts to life. In one particularly memorable project, a third-grade teacher used HTEF funds to launch a multi-sensory reading nook, transforming reluctant readers into enthusiastic participants during daily literacy time. In addition, our grants supported counseling resources, arts materials, fitness equipment, and language arts initiatives that foster creativity and well-being across our schools.

A major milestone came in 2023, when the HTEF Board of Trustees established an endowment fund with the ambitious goal of raising at least \$1,000,000. This endowment, when fully funded, will provide a sustainable \$40,000 annually to support ongoing grantmaking and ensure our long-term impact. We made encouraging progress towards this goal in 2025, but reaching it will require the continued commitment of our community.

We invite all community members to help us shape the future of Haddon Township Schools. Together, we can continue to grow our foundation's impact and ensure that every student in Haddon Township benefits from innovative, enriching educational opportunities. Thank you for your ongoing generosity, involvement, and support.
